

HopeCare

presents:

# hcoalert

health without barriers

The logo for HCAAlert features the text 'hcaalert' in a sans-serif font. The 'hca' is in a light teal color, and 'alert' is in a dark blue color. The 'c' and 'a' are connected, and the 'e' is stylized with a circular element.

**health without barriers**

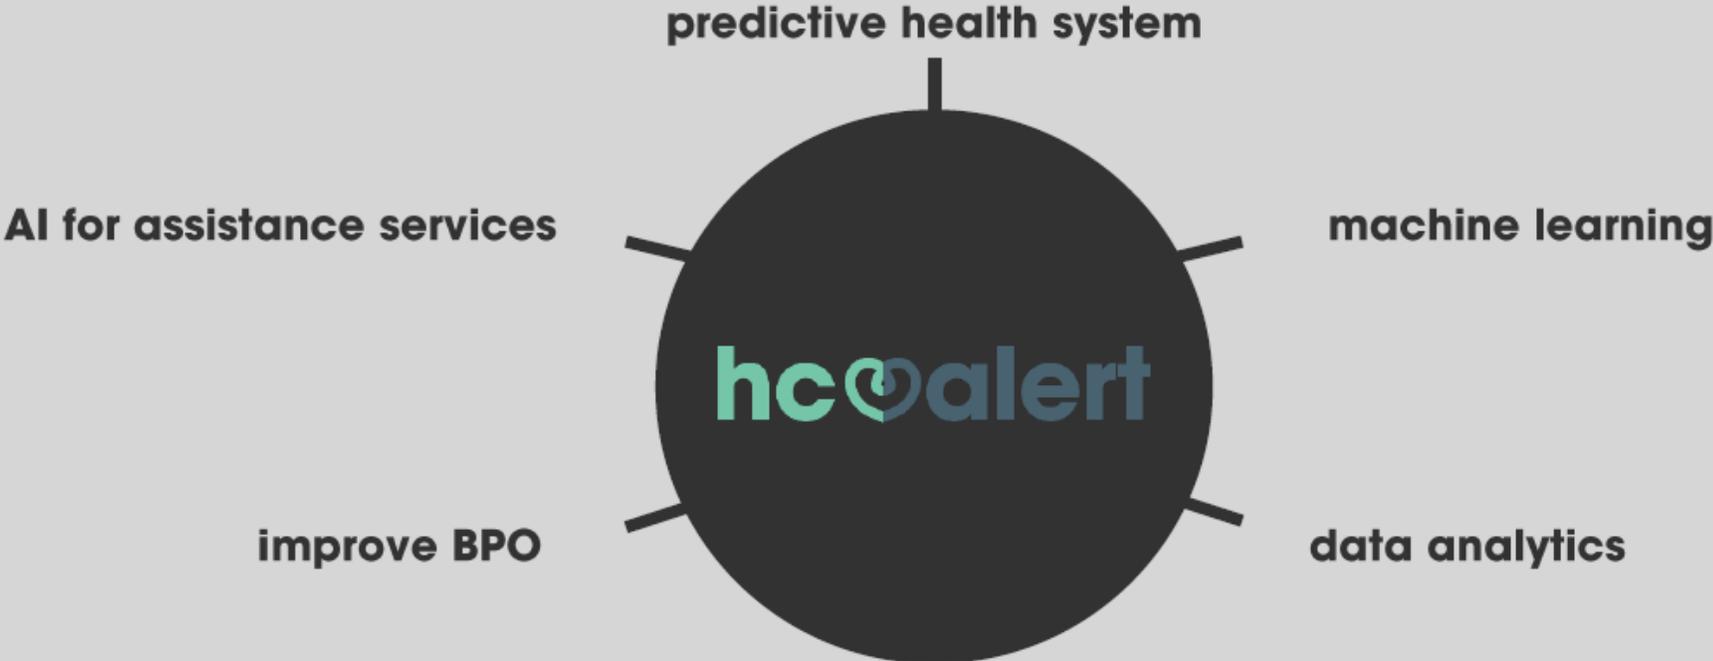

HCAAlert is an analytical cloud base system that allows to collect health data from patients at home. It implements automated clinical rules and procedures in order to alert health professionals about the patient's condition. This allows to deliver remotely a secure and fast medical assistance for a better care.

O HCAAlert é um sistema de analítica aplicado à Telemonitorização de dados de saúde. Baseia-se no serviço *cloud*, que recebe de diferentes fornecedores dados de saúde e alarmes de emergência . O HCAAlert cria alertas para o utilizador de modo a chamar a atenção para as situações críticas, consoante o programa de saúde e/ou regras definidas previamente no sistema.

# our vision

## build hospital at home

(empower health providers through technology)

# what we do

## service integration

integrate m-health APP's

proprietary telehealth platform

medical triage model
