

Rimilia

**Rimilia is for enterprise companies with a turnover above £250M, who want to get paid on time and control their cash flow.**

**Rimilia eliminates the uncertainty of monthly cash-collection targets, providing complete visibility and control by predicting when customers will pay and enabling organisations to drive prescriptive actions automatically. Rimilia deploys instantly to deliver benefits from day one.**

**Rimilia is the only platform to automate the complete accounts receivable process, enabling organisations to match and reconcile payments using machine learning. Rimilia's self-learning platform predicts customer payment behaviour to guarantee cashflow and take control of the sales ledger.**

**When Rimilia sells to customers it drives very large Azure consumption by processing and analyzing millions of enterprise transactions. Rimilia's Add-in enhances the features of Microsoft Dynamics and drives market share/retention.**
