

SkyLab Italia

The cloud suite for
managing Human
Resources, Learning
and HR Safety

The unique SaaS Platform that helps Human Resources Department to guarantee the full control of HR “soft” processes; Talent Management, Learning and Safety

Challenges

Together meets all the organizational needs aligning **HR and business strategies**. All main processes **are integrated in one unique system** (recruiting, administration, organization, job system, evaluation, training, compensation, safety) thus avoiding the necessity to turn to different suppliers for each managed aspect.

Make decisions involving people on time, based on the same reliable data

Guarantee time to compliance

Ease data sharing and collaboration

Ideal Solution

SaaS: no technical worries, continuous innovation enabled

Full integrated solution with legacy systems

Service support dedicated to users and for HR & business strategy execution

Fast implementation phase based on strong best practices models

Agile approach, from **carbon** to **diamond**, together with the customer

Legacy systems always running, around **Together**

Desired Outcomes

(One) Supplier as a Partner

(One) Strategic personnel data base to manage many organizations (HR, Safety, etc...)

(One) user experience

(One) global approach

From contract signature to customer life support, always Together

Same corporate guidance, everywhere

Process owner dedicated front ends

SkyLab Italia – Together Suite

The cloud suite for managing Human Resources, Learning and HR Safety.

SaaS ... SaaP

Supplier as a Partner, in SaaS

- We design, develop, deploy, deliver and support our solutions to enable our customers to achieve HR, Safety & business objectives

Unique platform, many processes

HR, Learning & Safety at the same place, at the same time

- Processes consistency guaranteed
- Organizational views for operational needs (HR, Safety etc.)

Integration, Innovation

Microsoft Azure Platform: a plus

- Easy to integrate: *integra* layer
- Easy to innovate: automated continuous release management tools
- MS Azure features available also for clients; ChatBot, Machine Learning, Autoscaling etc...

The Together Suite allows the customer to deploy a modern system to manage HR soft processes where all the actors involved can do the job in a simple and quick way, leaving time, attention and energy to their company core businesses.
