

Individual Adaptation of Information

- crucial for some – useful for all

Sven Erik Tønnesen

Smart Cognition - a **social** entrepreneur

Problem – Isolation and Lack of Self-Determination

- Persons with disabilities have right to ...
 - receive information on **an equal basis** with others ... (Article 21)
 - participate in leisure activities on **an equal basis** with others ... (Article 30)
 - = equal opportunities as others
- But, in real world ...
 - Information is non-existing, not relevant or not understandable
 - Persons with disabilities are more isolated, less active and have higher risk of health problems than rest of population

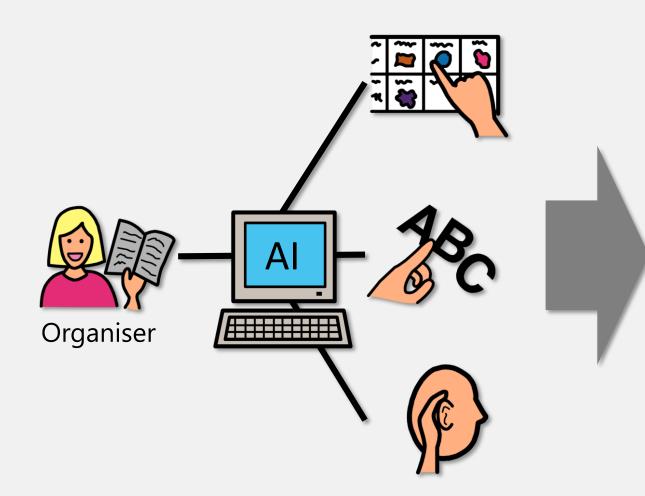

= reduced quality of life
