

Food Safety in 1-2-3

- Save time and money
- Protect your customer's health
- Simplified Health Department and HACCP compliance

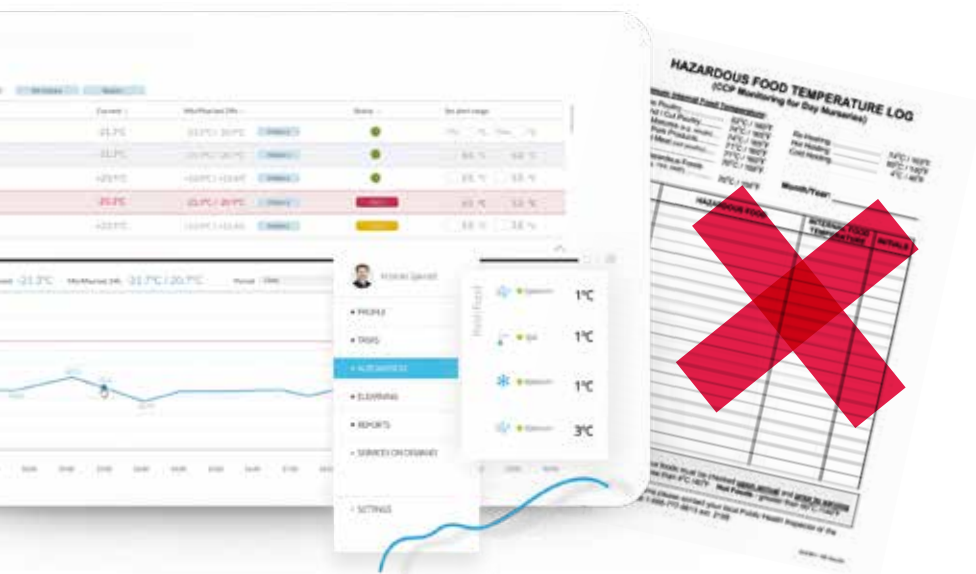

Sensor

sensee™

Measuring temperatures is critical for your business.
Doing it by hand is inefficient and risky.

Try the smart Sensee solution

- Place sensors where they're needed to automatically monitor temperatures and capture data
- Use our app to monitor all temperature processes in your business.
- Receive alerts when problems occur
- Simple dashboard to analyse real-time and historical data
- Provide regulatory reports and quality assurance

Gateway

Benefits

- Super easy to use. No technological expertise required.
- Inexpensive monthly pricing
- Guarantee regulatory compliance
- Protect against inventory loss, equipment failure and employee mistakes
- Save money on energy costs
- Protect customer health
- Employees freed to focus on service
- Peace of mind

Automated
Temperature Monitoring
& Data Reporting System
