

# Digital Signup

Class Registration & Program Management Simplified

Industry leader in class registration software for over 30 years. Designed by community educators, specifically for educators, our software provides built-in automated features that are easy to use and is proven to increase class registrations.

## What is Digital Signup?

Digital Signup is a cloud based class registration software designed for educational organizations that have one or more work-arounds associated with their class registration, enrollment, and payment processing programs.

Digital Signup eliminates redundant daily tasks so our clients staff can get back to managing, promoting and increasing participation in their classes, events, child care and preschool programs.

### Why customers use Digital Signup

1. Organizes class catalogs with intuitive search capabilities
2. Ability to select and register for classes from a calendar view
3. Flexible billing and tuition management options

#### Saved Payment Methods

- Multiple ways to customize payments.
- Safe and secure checkout
- Register and pay for multiple classes at a time across modules

#### Auto Pay & Account Lock

- AutoPay eliminates need to chase members class payments
- Easily control registrations with past due balance limits
- Custom payment and tuition based programs/options

#### Social Media Integration

- Post and share classes across social media with one-click
- Market your programs like a pro with built-in tools
- Create, schedule and send targeted mass emails easily

#### Business Intelligence Dashboards & Powerful Reporting

#### Third Party Authentication

#### Multi-Lingual Capability

"Digital Signup has simplified office procedures that were previously tedious and time consuming. Saved payment methods, auto pay and the ability for parents to print their own tax statements has eliminated our old school processes and procedures"  
Tammy Monroe- Assistant Director of Child Care/School Aged Programs Brighton Community Education.
