

New Work in the digital age.

Matching software for a networked organization

We are bringing our working models and structures to the digital age. With smart software and a modern approach – at your pace!

Tandemploy SaaS connects colleagues within your organization for flexible working models and collaborations of every kind – and provides agile knowledge transfer, opens up silos, improves innovative capacity, boosts competitiveness, and removes strain from HR.

Bottom-up Matching in 5 Modules:

- — **Mentoring**
Knowledge Transfer
- — **Projects**
Initiatives
- — **Job Rotation**
Shadowing
- — **Job Sharing**
Co-Leadership
- — **Working Circles**
Collaborations

4 Steps: How the software works

- 1. Profile Creation**
Bottom-up & anonymous if desired
- 2. Specifications**
Expertise, Potential & Needs
- 3. Matching**
Suitable colleagues & offers
- 4. Networking**
Proactive solutions

All modules are based on a clever **expert finder**, a smart matching system with an integrated synonym search and automated alerts for new “matches” with colleagues and/or offers within the organization.
