

VERITONE REDACT™

For Law Enforcement and Judicial Agencies

Save time and increase productivity by automating the redaction of faces and sensitive imagery in audio and video evidence.

AUTOMATED AUDIO & VIDEO EVIDENCE REDACTION

Expedite Redaction of Any Sensitive Items

- Automatically detect faces within video evidence, with results displayed in previewable groups by likely individual for quick and easy review.
- Select any sensitive image or audio portion then optionally track the defined images forward in the video evidence, expediting a once manual process.
- Modify a previously redacted video or audio file from the last version if any personally identifiable information (PII) is missed.

Fulfill Chain of Custody Requirements

- Capture comprehensive reporting of all actions taken against redacted video or audio evidence to support compliance with chain of custody requirements.
- Download all actions as audit logs in Excel file format along with redacted audio or video file.

Search Audio Transcripts to Find Key Info

- Listen to the audio while the transcript tracks along karaoke style - click on any word within the transcript to listen in
- Type keywords into the search bar and press enter to view them highlighted within the transcript
- Click on the time bar to see the start and end time of a highlighted audio segment

Collaborate Easily Across Agencies

- Manage digital evidence redaction workloads by tagging video or audio evidence with its status in the approval workflow.
- Download and send shareable redacted audio or video evidence files for quick distribution in existing inter and intra-agency workflows.
