### WHY IS FACILIAPP UNIQUE?

"

# Getting to know your business operations from "contact" to "contract" in your business.

# "

#### Best of both worlds

FaciliApp platform allows you to configure your bespoke functions suited for your business requirements. FaciliApp<sup>™</sup> provides systems for field services, back office Admin services and management workspace, all in one by bringing a Software as a Service (SaaS) solution into enterprise business management system.

#### A Clear all-in-one system

FaciliApp<sup>™</sup> works with customer and contacts, Staff and their tasks, management reporting, invoicing all encompassed within one single platform. Corporate email and calendars are integrated into FaciliApp<sup>™</sup> as well it can integrate with most other productivity systems within an enterprise using well developed APIs.

#### **Big Data**

With multiple devices, multiple employees and multiple jobs to manage the data which gets generated is a huge challenge. FaciliApp<sup>™</sup> works with BIG DATA technology to make the reporting and analytics faster and intuitive.

### **HISTORY OF FACILIAPP & BEYOND**

2015 - THE LAUNCH FaciliApp<sup>™</sup> was launched for first four clients.

2018 - The Promotion FaciliApp™ promoted NZ & internationally markets and sees possible usage in Construction, Hospitality, Facilities and other industries.

2014 - THE PLATFORM

FaciliApp<sup>™</sup> was conceived as a platform solution for managing the operational needs with staff faced by large organisations.

2017 - The Demand FaciliApp™ caught the eye of large

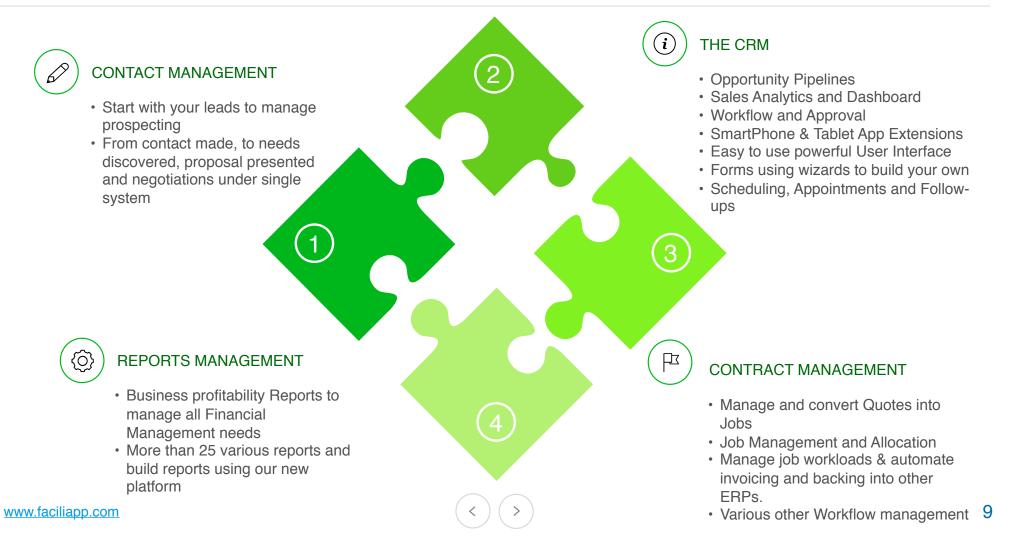

organisations and more and more use cases were seen as a possibility. From Task Management expands to other demands.

8

### THE FOCUS

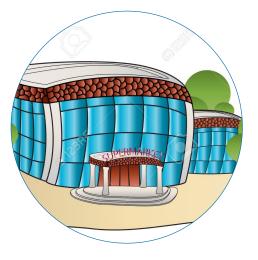

### **FACILIAPP<sup>TM</sup> INDUSTRY FOCUS**

#### SERVICE

Sales Automation, Sales Forecast, Sales Collaboration, product and service management make us a value proposition for service businesses.

#### GOVERNMENT

Museums and airports have growing need of real-time visibility of equipment, staff and tasks which is a typical large facility challenge.

CONSTRUCTION

Manage jobs centrally from FaciliApp and track jobs using other associated tools for field services, productivity and utilisation reporting.

#### HEALTHCARE

Healthcare industry has a unique need for tracking jobs and managing the workflow. Use of FaciliApp in managing the product catalogue, materials and inventory management and order processing.

### **COMPETITION & MARKET SEGMENT**

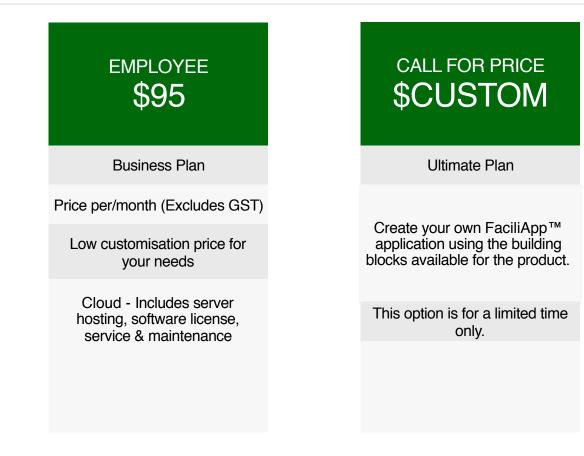

Our unique value proposition comes from having one infrastructure for Facility management, Product and Job Order Management, Task Management and Memo-Notes Management. We are an install once and scale with ease solution, which gives you faster scalability and quicker ROI.
