

K12 Education Solution

UNLEASH THE LEARNING POWER

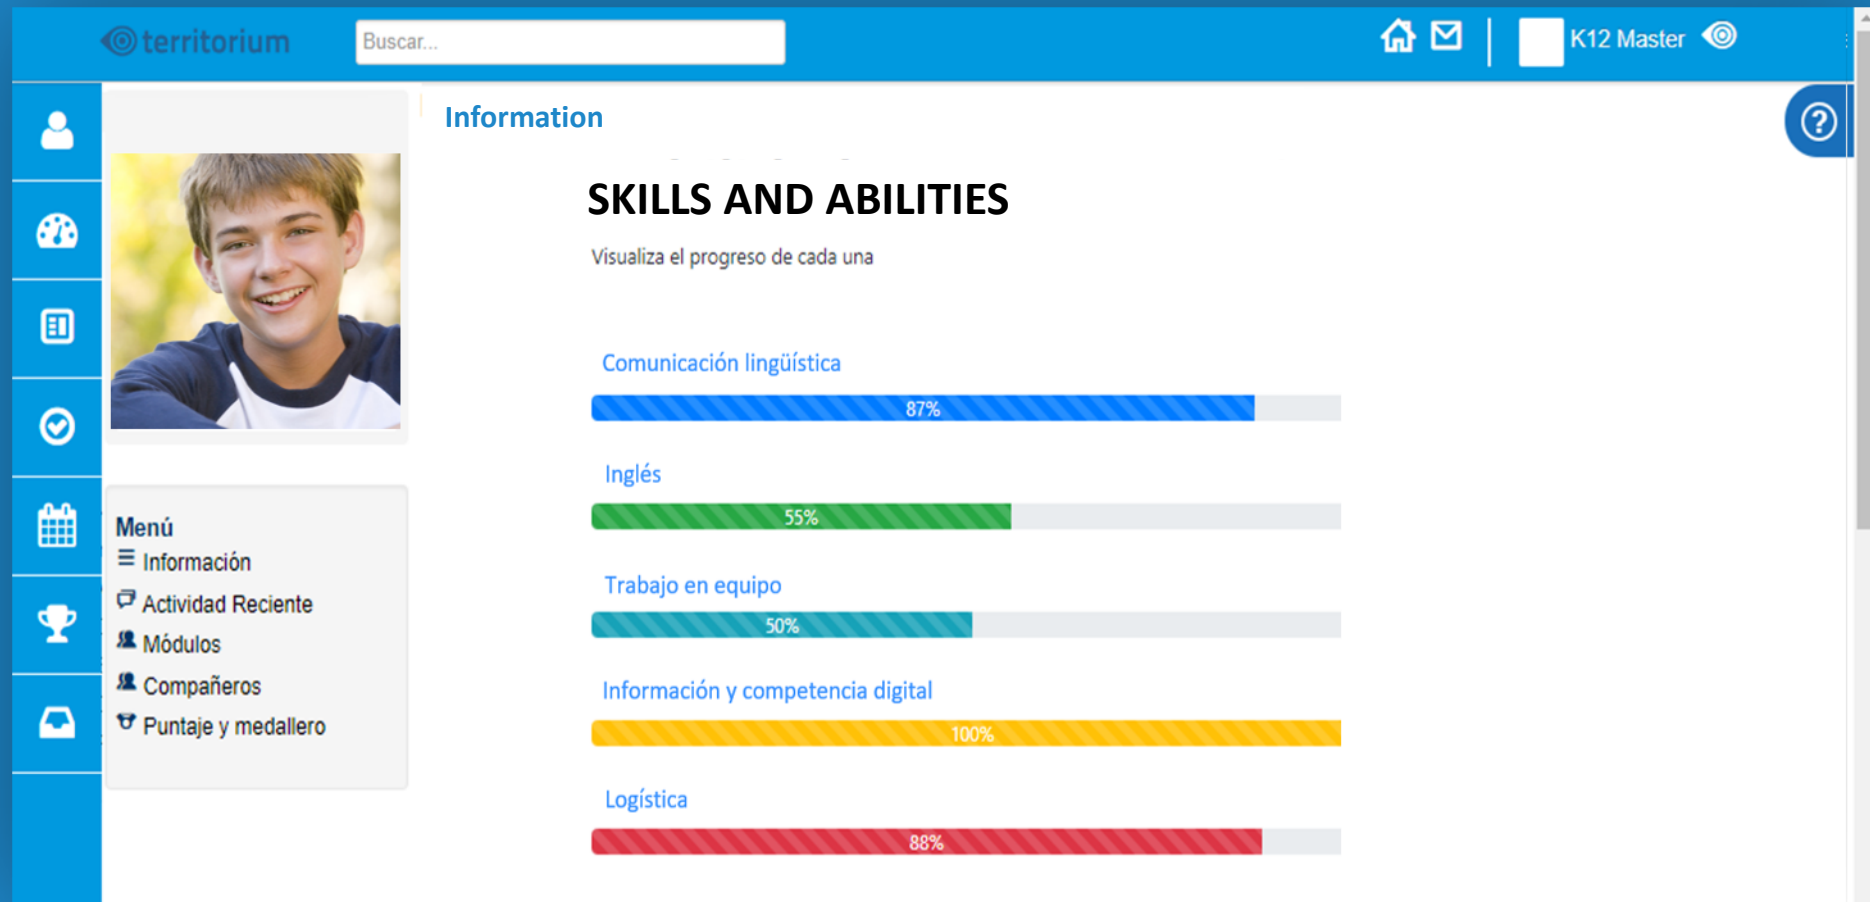

WE ARE PASIONATE ABOUT THE LEARNING RESULTS

IMPROVE ACADEMIC INDICATORS

DEVELOP SOFT SKILLS AND ABILITIES

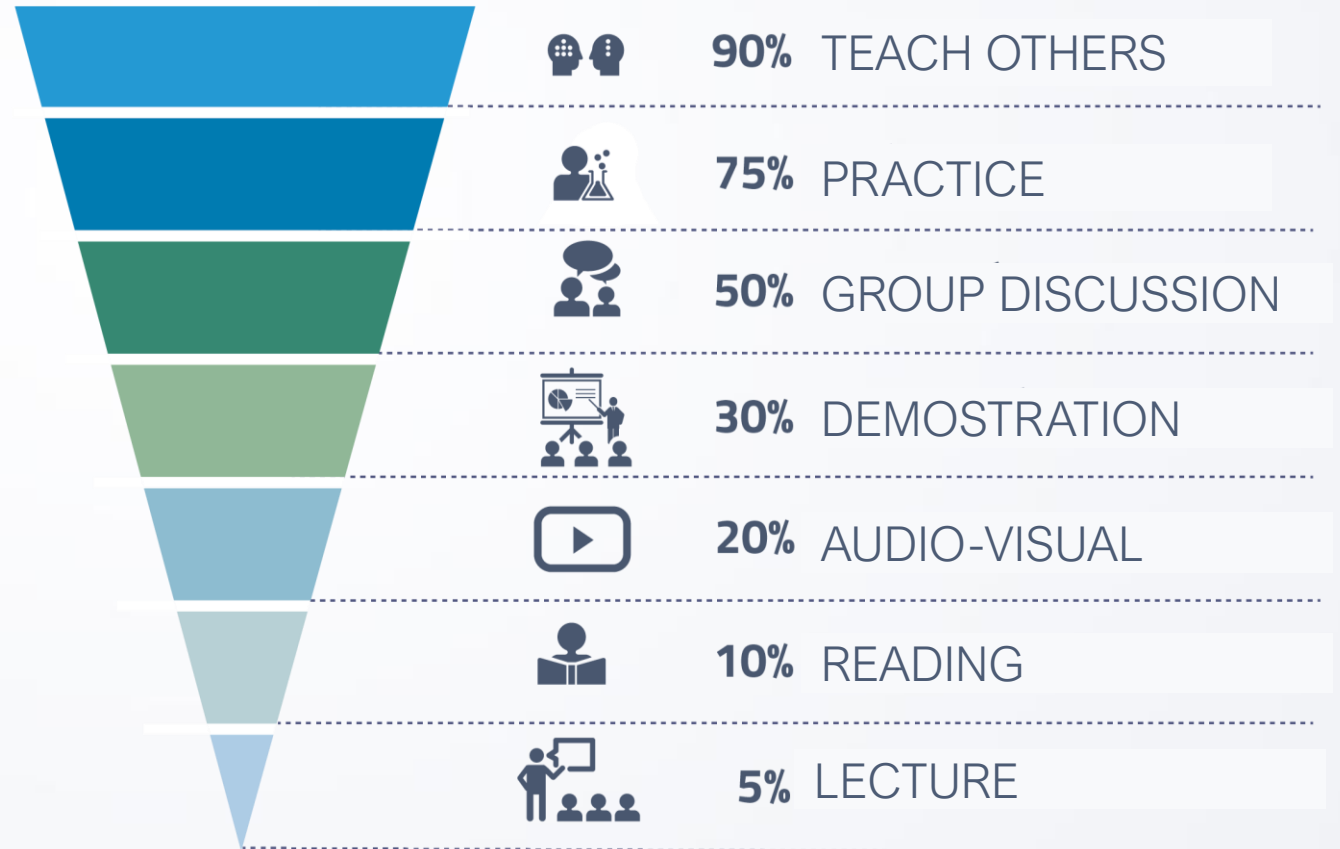

HAPPY KIDS = HAPPY PARENTS

COMPETENCY-BASED LEARNING

- We Know that the best way to learn is when the student participates with challenges, cases and teaches others.
- Our Solution's focal point is to develop the student's critical thinking skills using technology and neuroscience while being great support for the teacher's work.

A PERSONALIZED ECOSYSTEM OF LEARNING

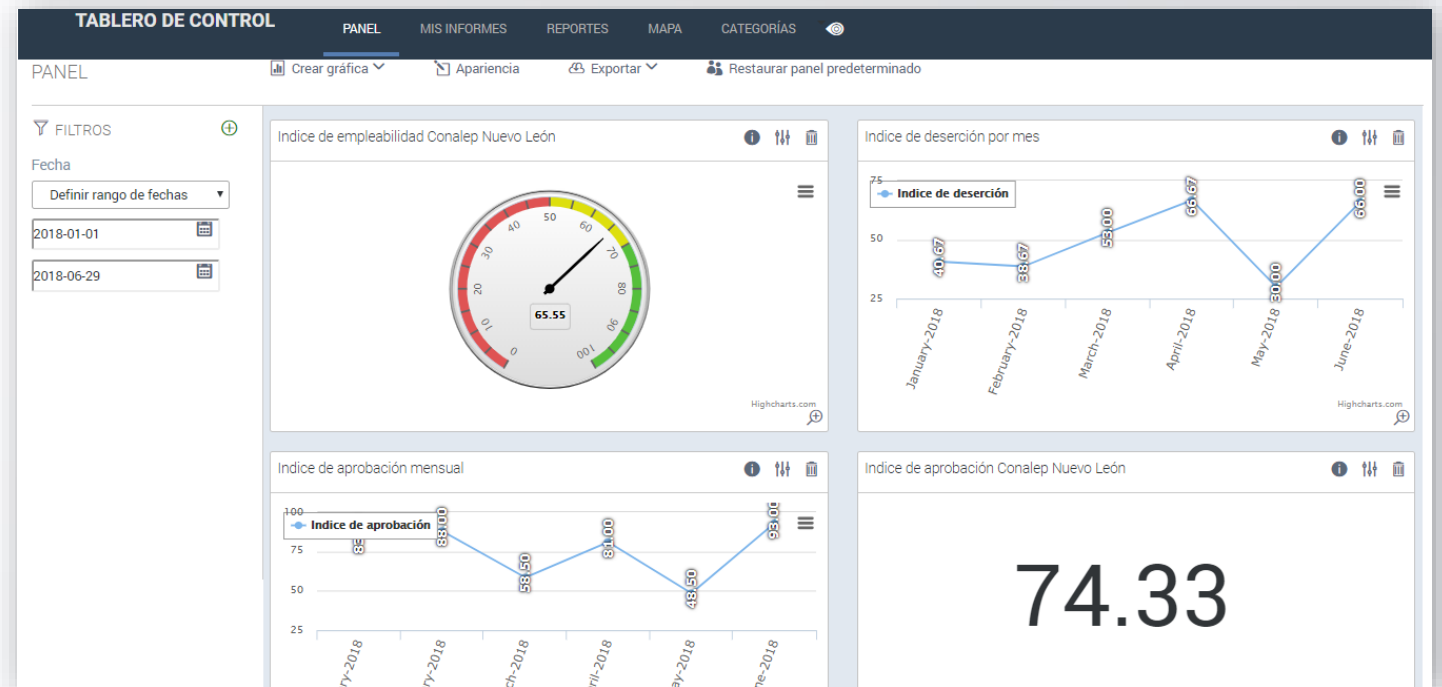

IMPROVE ACADEMIC INDICATORS

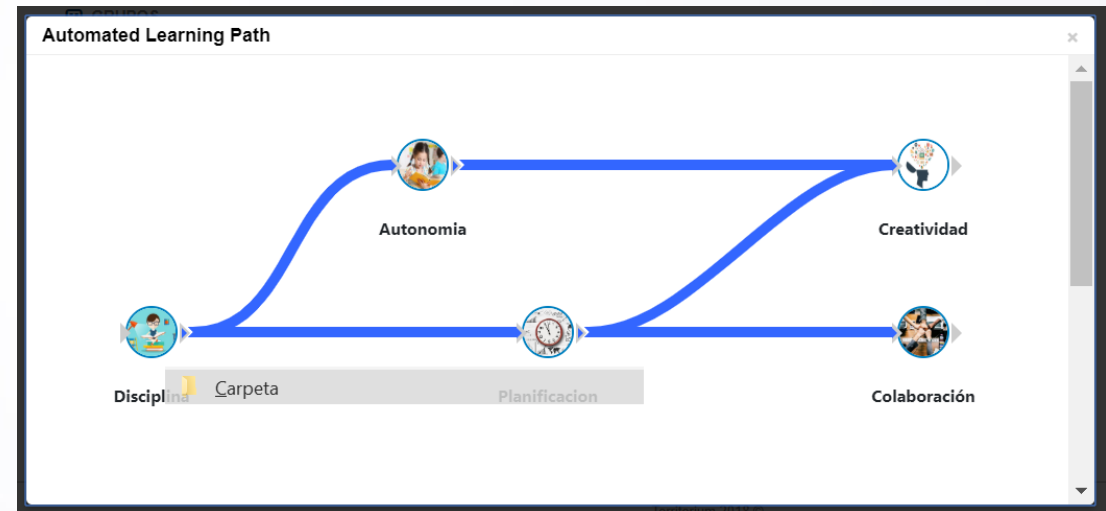

METRICS AND ALERTS ON REAL TIME

- Dashboard to check metrics, ranging from progress in a competition, curriculum to assistance, delivering tasks and activities.
- Alert teachers, parents and guardians when a student is at risk. Set up the risk factors and semaphores that allow to analyze when a student may fail or leave the institution.

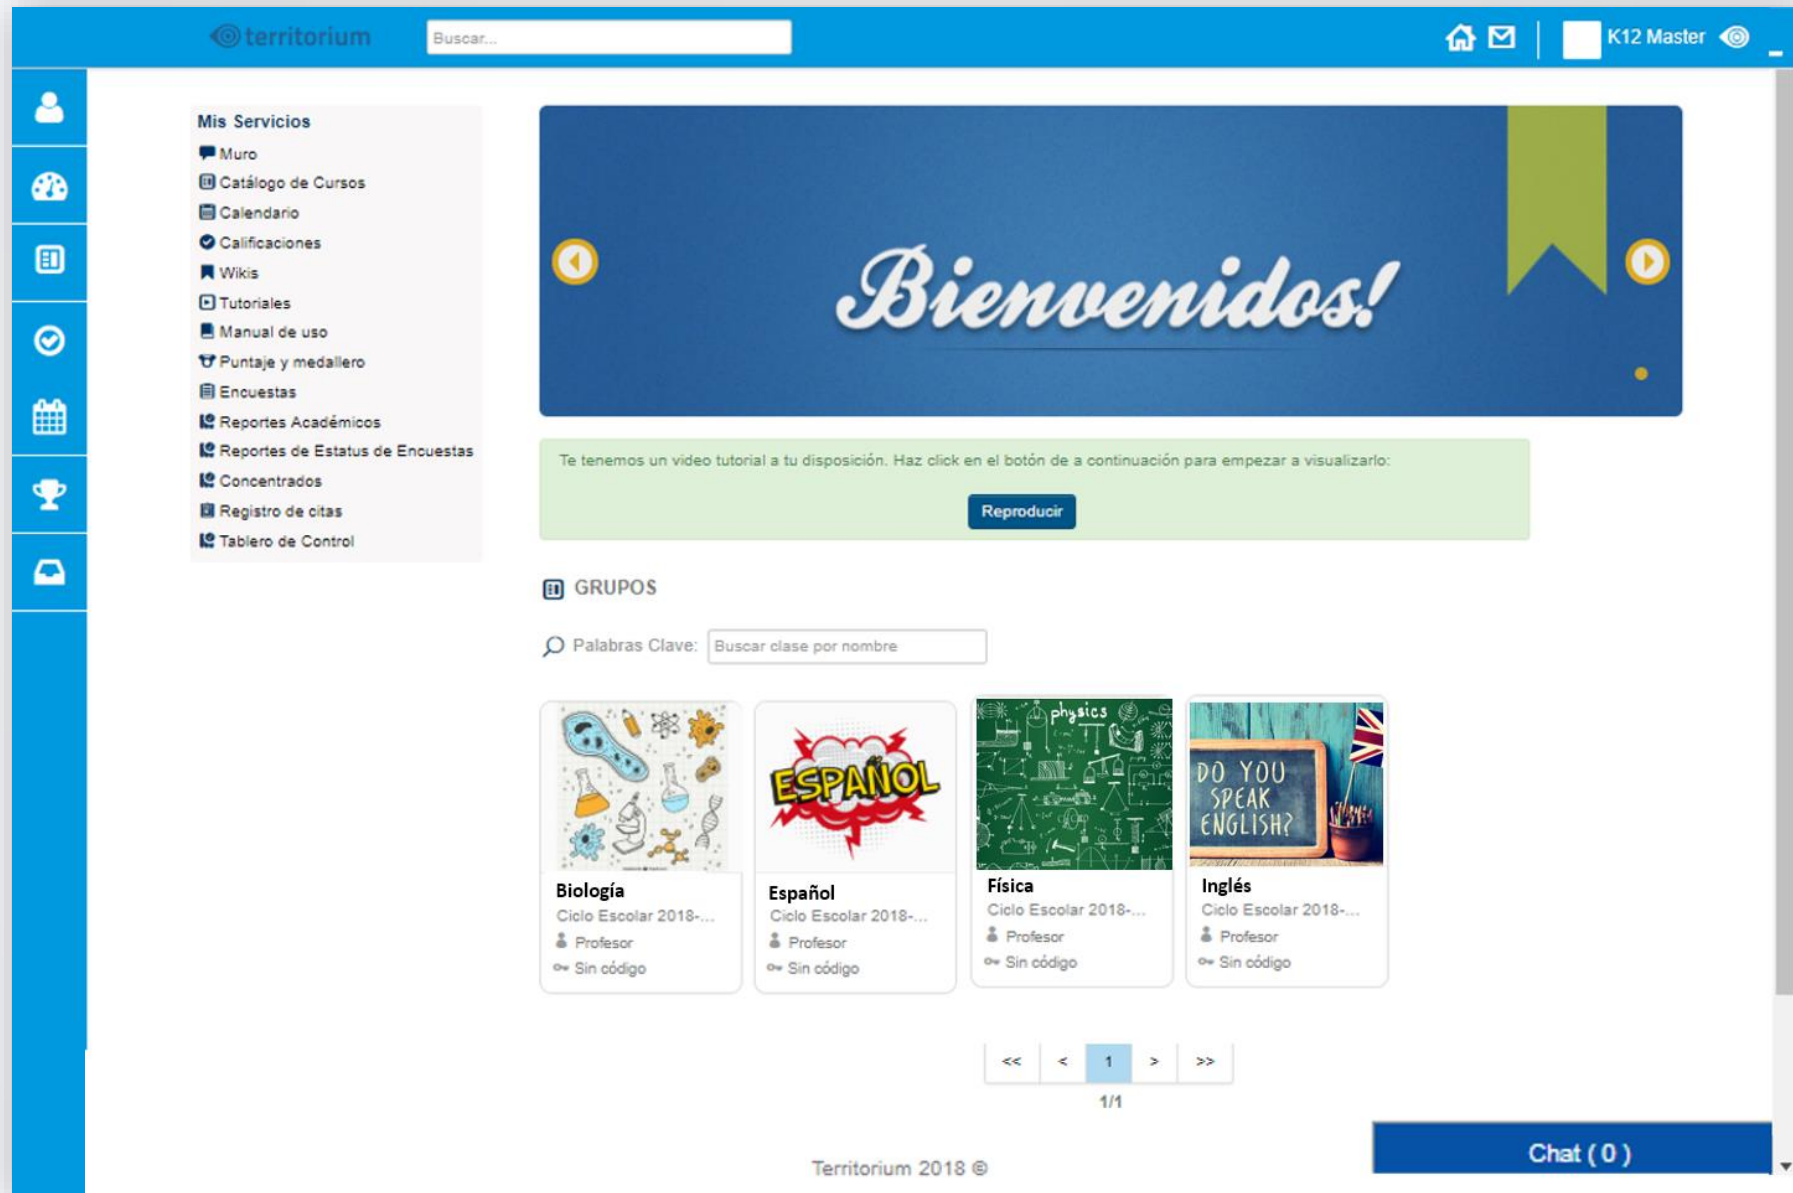

ADAPTIVE LEARNING

- The platform suggests learning routes to the student based on the skills developed and academic indicators.
- It recommends an activity to each other activity to others so that they improve in their indicators.
- Learning Is customized in order to improve student indicators.

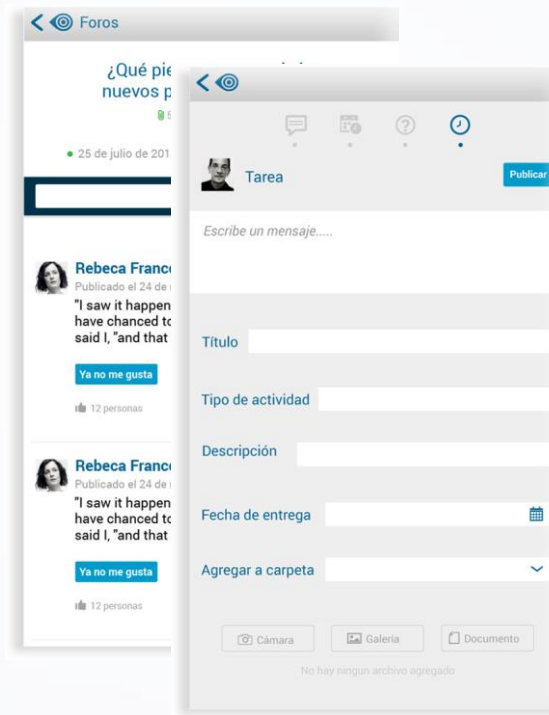

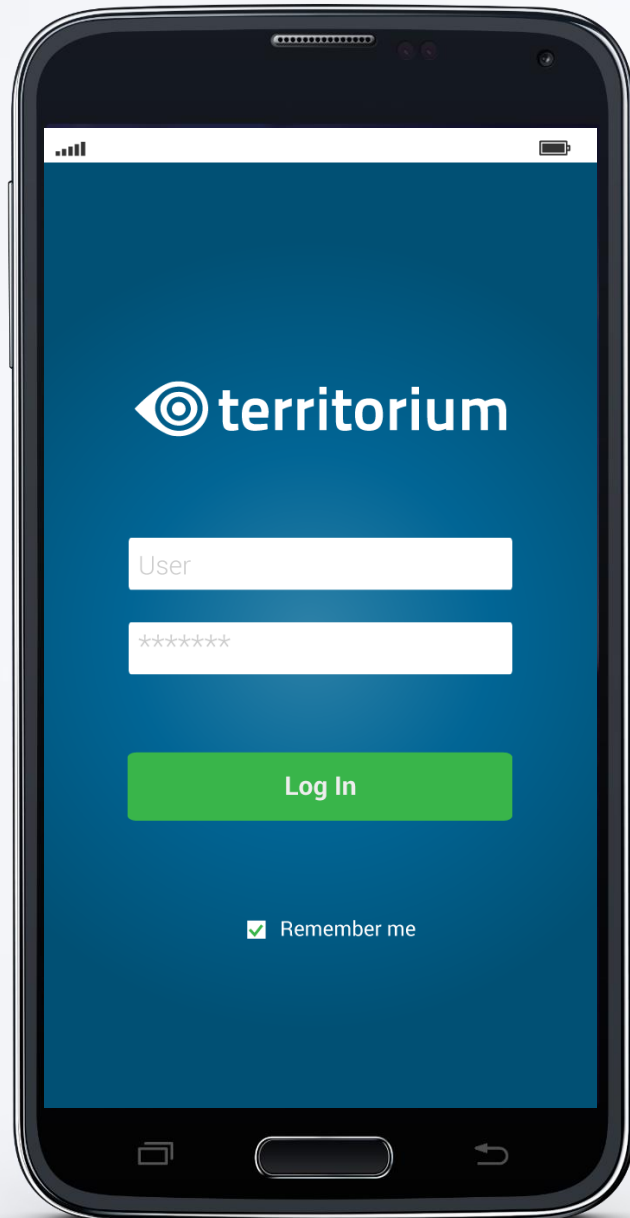

AN INTUITIVE AND SOCIAL PLATFORM

MOBILE APP

Access and carry out training activities at any time.

Interpolación lineal: Es el método más simple en uso, usado por los programas de generación de gráficas, donde se interpola con líneas rectas entre una serie de puntos

Chat (0)

- Manage content for students.
- Answer online exams to set exercises.
- Assign and evaluate tasks and activities of practice.

PROJECT-BASED LEARNING

COMPETENCY-BASED LEARNING

- Students can propose projects to solve a problem related to the subjects they take in a transversal way.
- Students will be able to solve issues related to a subject.
- Manage team projects.
- Online evaluate online and load evidence of the challenge progress.
- Make the challenge fun with Gamification and ranking points tables.

TEACHING EVALUATION

- Get various automated indicators of the platform such as execution of the course curriculum, activities carried out, time of answer to students.
- Allow students to obtain student satisfaction based on specialized surveys.
- Automatic Report by teacher and fully configurable dashboard with your evaluation by category, ranking and recommendations to improve.

WITH TERRITORIUM

THE TEACHER WILL BE ABLE TO:

Keep a complete record of qualifications for each of the activities generated in a very simple way and be able to rate it.

Replicate courses and only create content once.

Standardize the school content.

Automatically grade exams.

Keep a record for homeworks

Get you plan class to the next level

LEARNING CONTENT MANAGEMENT

- Create content in a simple and fast way to manage the learning path with videos, activities and exercises.
- Replicate content and allow one course to point to another when automatic changes are made in the other groups or use the content catalog to replicate them.
- Create online academies where several teachers offer content and vote for the best to be used in the course.

EVALUATION AND SATISFACTION

- Generate surveys to rate student satisfaction about their teachers and the institution.
- Generation of automatic reports with action plans for teachers and the institution.
-

The screenshot shows a web survey interface with a blue header. The header contains a search bar with the text 'Buscar...', a home icon, an email icon, a user profile picture, and the name 'Yaresi Saavedra'. Below the header, the main title 'Encuesta Conformidades' is displayed in a blue box, followed by the subtitle 'Encuesta sobre la nueva plataforma y su manejo.' in a white box. The survey is divided into sections, with the first section titled 'Seccion 1' in a blue box, followed by the instruction 'Lee atentamente cada pregunta y contesta según tus opiniones.' in a white box. The first question, 'Pregunta 1', asks '¿Qué opinas de la nueva plataforma?' and has a text input field for the answer, which contains the text 'Me gusta mucho porque es una herramienta más sencilla, práctica y muy innovadora.' The second question, 'Pregunta 2', asks '¿Has presentado dificultades con el manejo de la plataforma?' and has a radio button selection for the answer, with 'Si' and 'No' options. The third question, 'Pregunta 3', asks '¿Qué es lo que más te gusta de la nueva plataforma?' and has a text input field for the answer.

Encuesta Conformidades

Encuesta sobre la nueva plataforma y su manejo.

Seccion 1

Lee atentamente cada pregunta y contesta según tus opiniones.

Pregunta 1

¿Qué opinas de la nueva plataforma?

Respuesta

Me gusta mucho porque es una herramienta más sencilla, práctica y muy innovadora.

Pregunta 2

¿Has presentado dificultades con el manejo de la plataforma?

Respuesta

☐ Si

☒ No

Pregunta 3

¿Qué es lo que más te gusta de la nueva plataforma?

Respuesta

LOW-CONNECTIVITY MODEL

- When There is no connectivity, the platform saves the data locally on a device. Then the teacher can consult activities from his cell phone offline and when there is connection are sent and receive the new data.
- The same can be done with a local server that serves as a connector to the cloud.
-
