In Our school, Díde has provided us with a very considerable improvement in the treatment of the attention to diversity, now we offer a new service of detection complete to the families of our school, together with the families, professors, it is much more economic and Quickly, all without taking the child out of the class, or disturbing him until it is not necessary. This could not be real without the technology and the new methodology by observing Díde.

- Ana Marín, Director and partner, Escuelas Siglo XXI – Marni (<https://www.colegiomarni.es/>)

How díde works, to achieve real attention and diversity benefits

Administrator and/or tutor

- The Administrator Díde is the one who has all the control (educational counselor of the school), the administrator will be able to invite the tutors (professors) to be able to create themselves studies for their students.
- You Can Create a díde study for a child or for a whole class at the same time
- Invites up to 8 observers who know the child (family and teachers)
- Watch the results live, without having to wait for corrections

You can have automatic guidelines

- Guidance Guidelines for parents and teachers
- According To The results of the studio Díde
- To act from minute until the diagnostic arrives

Díde gives you the follow up of each student

- History and review of the state of each difficulty
- Statistics of the most found indicators
- Understanding the behavior and limitations of each student

Díde Education (try it for free)
