

## 35 Indicators/Difficulties **dídé** in three questionnaires

+

+

**14** **Emotions**  
and behaviours

**11** **Development**  
and social

**10** **Education**  
and learning

# 10 Education and learning

Learning to write

Verbal reasoning

Numerical reasoning

Learning arithmetic

Learning to read

Language acquisition

Nutrition

Articulation and pronunciation

Processing non-verbal information

Memory

# 11 Development and social

Bullying situations

Poor social adaptation

Development of psychomotor skills

Cyberbullying situations

Difficulty in motor and language development

Predisposition to advanced capabilities

Audition

Vision

Language development

Mental, social, and behavioral inflexibility

Communication, sociability, and empathy

# 14 Emotions and behaviours

Poor adaptation to school

Poor family adaptation

Negativistic and defiant behavior

Eating: problematic behaviors

Low mood state

Study, Technique and Frequency

Anxious mood state

Anger management difficulties

Disobedience

Low self-esteem

Low frustration tolerance

Attention and impulsivity

Dominant, demanding, and egocentric behavior

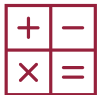

New technologies: maladaptive use

# Díde questionnaire

## 10 Education and learning

- 1  Learning to write
- 2  Processing non-verbal information
- 3  Verbal reasoning
- 4  Articulation and pronunciation
- 5  Learning arithmetic
- 6  Memory
- 7  Numerical reasoning
- 8  Language acquisition
- 9  Learning to read
- 10  Nutrition

# Díde questionnaire

11

## Development and social

3

Mental, social, and behavioral inflexibility

6

Language development

9

Audition

1

Bullying situations

4

Development of psychomotor skills

7

Difficulty in motor and language development

10

Communication, sociability, and empathy

2

Poor social adaptation

5

Cyberbullying situations

8

Predisposition to advanced capabilities

11

Vision

# Díde questionnaire

## 14 Emotions and behaviours

3  Low frustration tolerance

6  Attention and impulsivity

9  Disobedience

12  Low mood state

1  Poor adaptation to school

4  Negativistic and defiant behavior

7  Dominant, demanding, and egocentric behavior

10  Anxious mood state

13  New technologies: maladaptive use

2  Poor family adaptation

5  Eating: problematic behaviors

8  Study, Technique and Frequency

11  Anger management difficulties

14  Low self-esteem

# Questionnaire dÍde (2 to 3 years)

## 14 Childhood

1  Low tolerance to frustration

2  Disobedience

3  Difficulty in the anger management

4  Communication sociability and empathy

5  Articulation and pronunciation

6  Development difficulty engine and language

7  Psychomotricity

8  Predisposition to advanced capabilities

9  Verbal reasoning

10  Numerical reasoning

11  Mental inflexibility, social and behavioral

12  Memory

13  Nutrition

14  Language acquisition

 Emotions and behaviours

 Development and social

 Education and learning

# Questionnaire “Custom” dÍde (4 to 5 years)

-  Emotions and behaviours
-  Development and social
-  Education and learning

## 29 Second childhood

- 1**  Low tolerance to frustration
- 2**  Disobedience
- 3**  Difficulty in the anger management

- 4**  Communication sociability and empathy
- 5**  Joint and pronunciation
- 6**  Difficulty of engine development and of language
- 7**  Psychomotricity
- 8**  Predisposition to advanced capabilities
- 9**  Reasoning verbal
- 10**  Reasoning numerical
- 11**  Mental inflexibility, social and behavioral
- 12**  Memory
- 13**  Nutrition
- 14**  Acquisition of language
- 15**  School mismatch
- 16**  Family maladjustment
- 17**  Negative behavior and challenging
- 18**  Attention and Impulsivity
- 19**  Dominant, demanding and egocentric behavior
- 20**  Development of the language
- 21**  Anxious mood
- 22**  Under state of mind
- 23**  Low self-esteem
- 24**  Social misadaptation
- 25**  Vision
- 26**  Writing learning
- 27**  Calculation learning
- 28**  Reading learning
- 29**  Processing non-verbal information

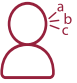

# Questionnaire “Custom” dÍde (6 to 7 years)

-  Emotions and behaviours
-  Development and social
-  Education and learning

## 29 Childhood stage

- 1**  Low frustration tolerance
- 2**  Disobedience
- 3**  Anger management difficulties

- 1**  Bullying situations
- 5**  Articulation and pronunciation
- 6**  Difficulty in motor and language development
- 7**  Development of psychomotor skills
- 8**  Predisposition to advanced capabilities
- 9**  Verbal reasoning
- 10**  Numerical reasoning
- 11**  Mental, social, and behavioral inflexibility
- 12**  Memory
- 13**  Nutrition
- 14**  Language acquisition
- 15**  Poor adaptation to school
- 16**  Poor family adaptation
- 17**  Negativistic and defiant behavior
- 18**  Attention and impulsivity
- 19**  Dominant, demanding, and egocentric behavior
- 20**  Audition
- 21**  Anxious mood state
- 22**  Low mood state
- 23**  Low self-esteem
- 24**  Poor social adaptation
- 25**  Vision
- 26**  Learning to write
- 27**  Learning arithmetic
- 28**  Learning to read
- 29**  Processing non-verbal information

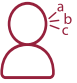

# Questionnaire “Custom” dÍde (8 to 9 years)

-  Emotions and behaviours
-  Development and social
-  Education and learning

## 31 Mid-childhood stage

- 1  Low frustration tolerance
- 2  Disobedience
- 3  Anger management difficulties

- 1  Bullying situations
- 5  Articulation and pronunciation
- 6  Difficulty in motor and language development
- 7  Development of psychomotor skills
- 8  Predisposition to advanced capabilities
- 9  Verbal reasoning
- 10  Numerical reasoning
- 11  Mental, social, and behavioral inflexibility
- 12  Memory
- 13  Nutrition
- 14  Language acquisition
- 15  Poor adaptation to school
- 16  Poor family adaptation
- 17  Negativistic and defiant behavior
- 18  Attention and impulsivity
- 19  Dominant, demanding, and egocentric behavior
- 20  Audition
- 21  Anxious mood state
- 22  Low mood state
- 23  Low self-esteem
- 24  Poor social adaptation
- 25  Vision
- 26  Learning to write
- 27  Learning arithmetic
- 28  Learning to read
- 29  Processing non-verbal information
- 30  Study, Technique and Frequency
- 31  New technologies: maladaptive use

# Questionnaire “Custom” dÍde (10 to 12 years)

-  Emotions and behaviours
-  Development and social
-  Education and learning

## 31 Pre-adolescence Stage

- 1  Low frustration tolerance
- 2  Disobedience
- 3  Anger management difficulties

- 4  Bullying situations
- 5  Cyberbullying situations
- 6  Attention and impulsivity
- 7  Development of psychomotor skills
- 8  Predisposition to advanced capabilities
- 9  Verbal reasoning
- 10  Numerical reasoning
- 11  Mental, social, and behavioral inflexibility
- 12  New technologies: maladaptive use
- 13  Nutrition
- 14  Eating: problematic behaviors
- 15  Poor adaptation to school
- 16  Poor family adaptation
- 17  Dominant, demanding, and egocentric behavior
- 18  Study, Technique and Frequency
- 19  Negativistic and defiant behavior
- 20  Audition
- 21  Anxious mood state
- 22  Low mood state
- 23  Low self-esteem
- 24  Poor social adaptation
- 25  Vision
- 26  Learning to write
- 27  Learning arithmetic
- 28  Learning to read
- 29  Processing non-verbal information
- 30  Memory
- 31  Difficulty in motor and language development

# Questionnaire “Custom” dÍde (13 to 18 years)

-  Emotions and behaviours
-  Development and social
-  Education and learning

## 30 Adolescence

- 1  Low frustration tolerance
- 2  Disobedience
- 3  Anger management difficulties

- 4  Bullying situations
- 5  Cyberbullying situations
- 6  Attention and impulsivity
- 7  Development of psychomotor skills
- 8  Predisposition to advanced capabilities
- 9  Verbal reasoning
- 10  Numerical reasoning
- 11  Mental, social, and behavioral inflexibility
- 12  New technologies: maladaptive use
- 13  Nutrition
- 14  Eating: problematic behaviors
- 15  Poor adaptation to school
- 16  Poor family adaptation
- 17  Dominant, demanding, and egocentric behavior
- 18  Study, Technique and Frequency
- 19  Negativistic and defiant behavior
- 20  Audition
- 21  Anxious mood state
- 22  Low mood state
- 23  Low self-esteem
- 24  Poor social adaptation
- 25  Vision
- 26  Learning to write
- 27  Learning arithmetic
- 28  Learning to read
- 29  Processing non-verbal information
- 30  Memory
