# happit

Frustration kills motivation.
Happier employees with single click learning.

When deploying complex digital solutions, such as **Office 365** workloads, it is crucial to make sure users get enough support for adoption and engagement.

Based on commonly agreed study, employees learn **10%** when in courses, **20%** from mentors and **70%** by doing themselves. For organizations going through digital transformation, this means learning and doing can no longer be separated.

Happit is a Single Click Learning solutions

With one single click, users can learn new skills and get all the support they need.

Onboard new business applications

Keep your employees' digital skills always up-to-date
