

Inventogo

Save Time, Work Together, Get More Done

Cloud based: Inventogo allows for seamless collaboration, so your team can spend more time doing what they do best.

Know your Financial Position

Inventogo has a strong focus on cash management and contains a series of dashboards and reports to give management a real time view of the business. There are specific reports and dashboards on bank cash position, profit-loss, total receivables, total payables, aged payables and receivables plus many more.

Increase Sales

To make every customer feel important your sales team needs accurate information about the progress of their transactions. With Inventogo the team is able to know all customer contact plus what the customer is currently interested in. Seamlessly post multi-currency invoices to the Inventogo Financial Module for collection. Our built in e-commerce module makes selling online effortless.

Control Spending

Centralised buying enables you to buy more accurately and make better decisions about the type and quantity of stock. Also manage non-stock, freight and fixed asset purchasing. Seamlessly post multi-currency invoices to the Inventogo Financial Module for payment.

Become the Reliable Supplier

Flawless shipping enhances your reputation as a reliable supply partner for your customers. It is very important that products are shipped on those pressure days. Always know what is to be shipped next and to where. Receive inward goods and control purchase order fulfilment.
