## Organic Mind Mapping Design

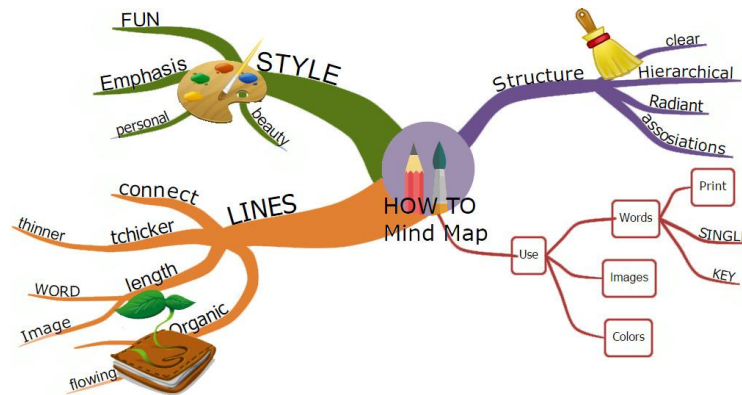

Mapul is a single web application which offers a unique organic look of your mind maps.

Feel that gets you closer to the experience of creating hand-drawn mind maps than any other web mind mapping tool.

## Brainstorming

Do you need to quickly generate ideas and you don't have a time to draw a mind map?

Use brainstorming mode to create your ideas down quickly without having to worry about structure or organization

## Incredible Presentations

With Mapul's presentation you will turn your mind maps into beautiful slideshows within seconds.

You can export the slides as Microsoft Power point and even broadcast it live to people in online.

## Attachments, Export and Share

Attach images, notes and external links to reveal your ideas and collate all inspiration in one central workspace.

Export your mind maps as JPEG / SVG and print them.  
Create a link to your mind map for easy sharing your ideas in web. People with the link can access your map even if they don't have an account.
