

Customer Success Story

Insurance Omnichannel is a comprehensive set of tools for selling insurance. With this product Insurers can handle the end-to-end sales process online, both as self-service for customer and via agent. Integration of insurer, distributors, agents, clients and partners in one platform. Solution was awarded with InsureTech Award during FinTech & InsurTech Digital Congress 2018. Only 3 months time-to-market and possibility to set-up new business thanks to this platform.

Win Results

Platform integrates different sales channels, including: web, mobile, local branches of different operators and medical insurance providers.

Product is set on microservices & dockers technology and hosted in Microsoft Cloud. In the result, the system automatically adapts to the load generated by the customer, is cost-effective and flexible to technological and business changes.

InsurTech Award 2018 for best IT solution speaks by itself.
