Automate Incoming, Outgoing Bank Payments and Payment Reminders

- Compliant format to manage the import of the electronic bank statements, including amounts received from customers
- Export Electronic Funds Transfer (EFT) files to make payments to the customers
- Send automatic Email Reminders at pre-defined intervals for outstanding transactions

WHAT IS IN IT FOR ME?

1 GROWTH IN MRR

Customer shift to subscription economy creates unique revenue growth opportunities by offering increased value to customers through agility

2 IMPROVED CASH-FLOW

In a subscription economy you get paid 1/12th while having full sales, R&D, and production costs up front. The ability to invoice on time and send reminders to optimize DSO is critical for business sustainability

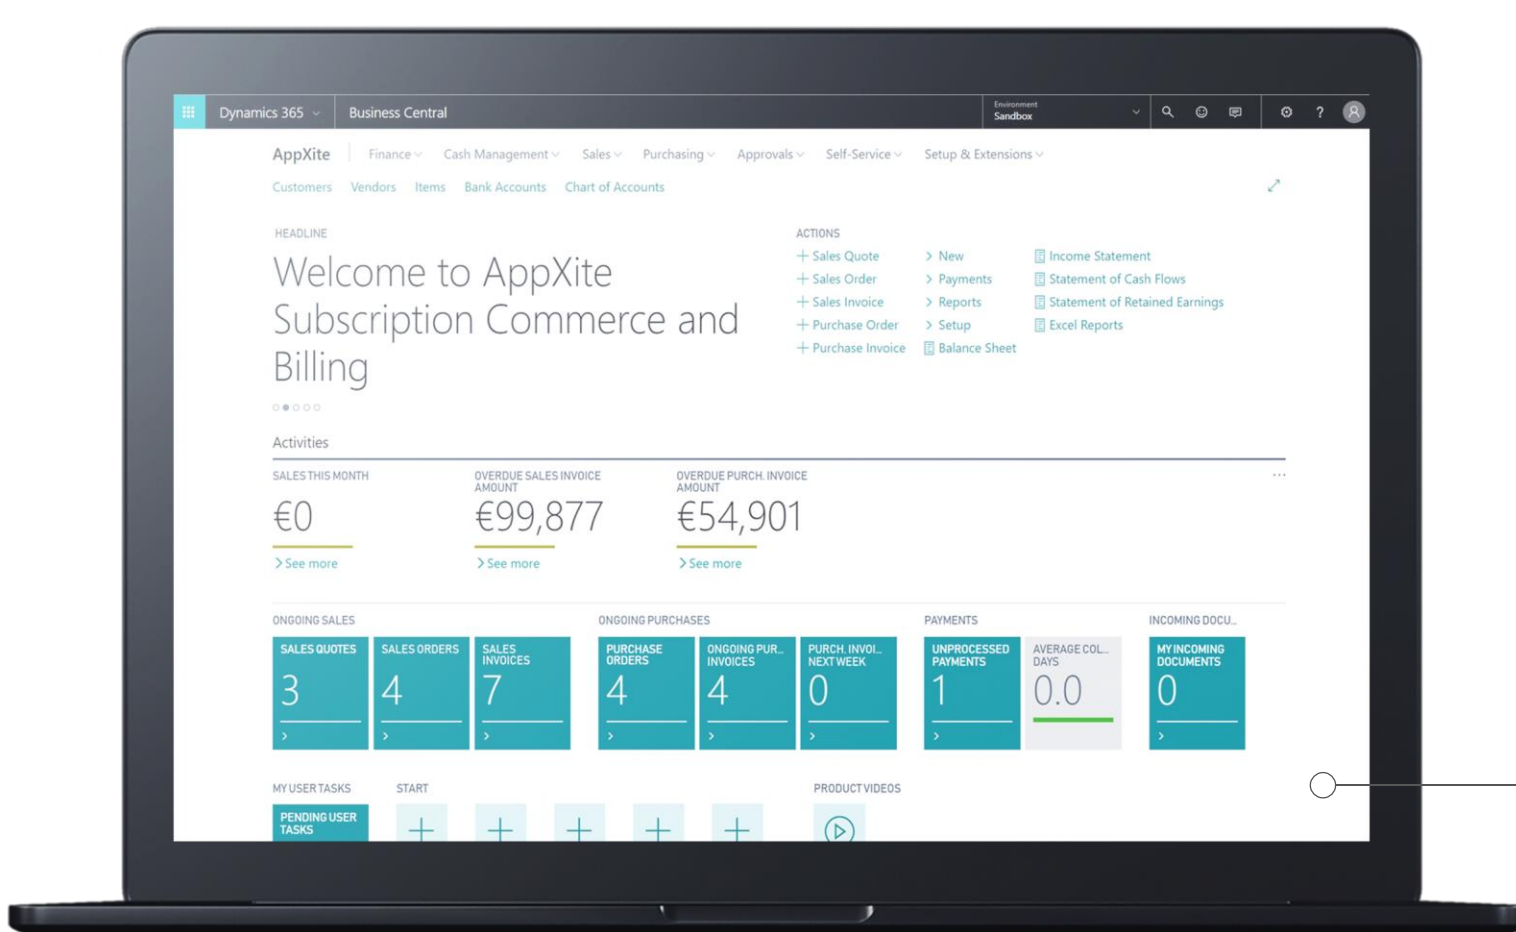

3 CAPPED OPERATIONAL COSTS

The transition to subscription business model can be daunting. Number of invoices increase twelvefold with varying invoice amounts each month. By leveraging AppXite solution you can gain efficiency on your administrative processes and reduce operational costs

4 IMPROVED CUSTOMER SATISFACTION

You have multiple touch points with your customer. Timely and accurate invoices are a must to maintain professional reputation

HOW IT LOOKS?
