Navigate Pro is a graphical tool for navigating through documents in Microsoft Dynamics 365 Business Central.

It's a brand new functionality that produces an interactive flow overview of documents related to the selected starting document.

Navigate Pro works with all Sales and Purchase documents, including Warehouse documents just as part of aforesaid flows.

Why Navigate Pro

With Navigate Pro you can reduce costs and save up to 98% of your time.

Find your documents at a glance!

You will be able to view and understand your Sales and Purchase Flow in a blink.
