Coupon Codes for Microsoft Dynamics

Flexible management of various types of discounts, including discount codes, gift cards or bundle deal codes.

Highlights

- Management of percentual and absolute discounts and vouchers
- Management of percentage discounts or bundle deals
- Financial management of gift cards in the financial accounting of Dynamics NAV
- Direct entry of discount codes in the order / quote

Functions

Their flexibility in redemption and design make vouchers an optimal reward tool – and increase your marketing success! With dynamic commerce, you create and administrate all kinds of discount codes directly in Microsoft Dynamics.

We enable the manual creation or automatic generation of discount codes in Microsoft Dynamics that can be redeemed directly in the order / quote. Each code can include a percentage discount, gift card or bundle deal.

Prices

- Cloud version: 49,- € / month
- On premise: 2.490,- € / unique

Supported editions

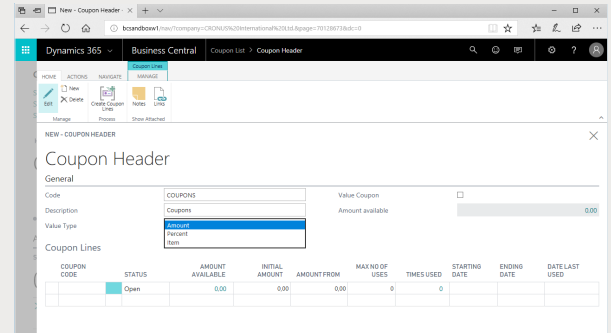

- Microsoft Dynamics Business Central Essentials
- Microsoft Dynamics Business Central Premium
- Microsoft Dynamics NAV (2013 - 2018)

About dynamic commerce

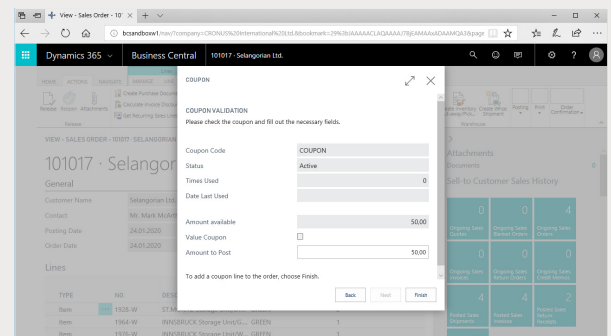

dynamic commerce develops innovative e-commerce software for medium-sized businesses. With the E-Commerce Suite based on Microsoft Dynamics, you can seamlessly connect ERP and e-commerce processes. Simply publish and manage countless webshops (b2b & b2c) and marketplaces right out of Microsoft Dynamics. Together, we manage the planning, implementation and daily operation of your Webshops and support you to achieve sustainable success with your eCommerce projects. In addition, dynamic commerce offers numerous ERP apps. These expand Microsoft Dynamics to include important features for online merchants.

Other ERP-Apps

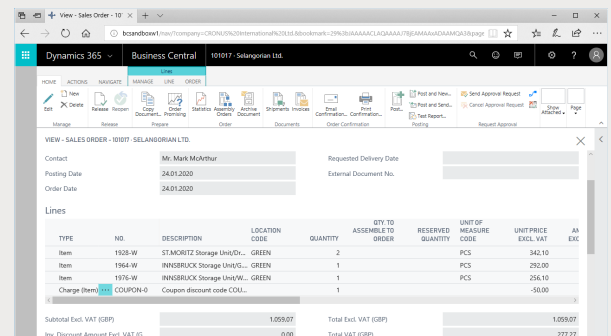

- E-Commerce-Suite
- Shipping costs

Creation of individual codes directly in Microsoft Dynamics Business Central
