OUTPUT MANAGEMENT?

Output management is a method to control the layout, distribution and archiving of data from each software application (ERP) system.

We have the Output Management solution for your organisation.

ADVANCED-FORMS®

WHAT IS ADVANCED-FORMS®?

Advanced-Forms® is a user-friendly and flexible solution enabling the automation of your outbound document flow (such as invoices, purchase orders, quotations, transport documents).

Advanced-Forms® helps you to quickly and easily:

- create, print, send and archive your documents;

- add temporary promotions and personalized messages to your documents;
- adjust documents to the language of your choice;
- apply your corporate identity to your outbound documents;
- automatically add extra documents;
- automate your business processes;
- set-up an extensive document workflow validation process;
- validate your documents with the Advanced-Forms® app.

UTILISATION

Advanced-Forms® integrates with almost any application.

Archiving

Print

Creation of documents

Document-distribution

Mail

ADVANCED-FORMS® FOR BC

SPECIALLY FOR MICROSOFT DYNAMICS 365 BUSINESS CENTRAL:

A powerful tool to manage reports from within your Microsoft Dynamics 365 Business Central application! Document creation, distribution, and archiving has never been this fast, simple and affordable.

Functionalities:

- Creation of documents
- Dynamics content driven
- Document distribution (preview, print, mail)
- Archiving
- Conversion of reports to Advanced-Forms® Lite for BC

CUSTOMER EXPERIENCES

"With Advanced-Forms® **we** are able to create our documents in a more easy, fast and flexible way than with the standard options from Microsoft Dynamics AX."

"We are very pleased and satisfied with Advanced-Forms®. One of the few things in IT Automation that **does** work properly."

"We know Quadira from the past as well-known and distinguished Document Output Management specialists. A great additional advantage is that our Microsoft Dynamics partner offers Advanced-Forms® as a standard add-on to their Dynamics proposition."

"Until recently we had to manually process our (summary) invoices. With Advanced-Forms® we are now able to process these invoices automatically and directly send them by e-mail."

"Advanced- Forms® is an intuitive solution which does not require a lot of training. After installing the solution we were instantly able to start and process the first standardized documents from our system."
