Boltrics
WITHOUT A DOUBT

365 for Transportation

Take control of your transportation administration with a powerful and easy TMS.

As a logistics service provider, you understand the importance of processes and information flows. Not only your business but also those of your clients depend on your IT solution. That is why Boltrics developed a future-proof branch standard, based on the power of the Microsoft Dynamics platform.

The branch standard as the standard

A solution that includes all the branch-specific functionality you require. Standard. What you get is a complete and quick deployable system that fits your organization. Allowing you to streamline your operations, and your employees to easily find and share information. Management reports provide actual and clear information, so you know what is happening and can make deliberate adjustments.

Why customers use 365 for Transportation

- One integrated solution, one single source of truth
- Functionalities are developed and shared branch-wide.
- Benefit from the development speed of the Microsoft platform

Improve the power to execute

- Includes all the branch specific functionality you require
- Benefit from the possibilities of Microsoft Dynamics 365 for Financials
- Connects with the processes and roles within your organization

Set it up in less than 10 minutes

Take control of your business

- All processes are integrated into the software
- Management reports provide actual and clear information
- Works seamlessly with other Microsoft programs

Cut administration cost with 50%

Stay always up-to-date

- All our customers work on the latest version
- New functionalities are developed and shared branch-wide
- Updates take place without disrupting your business

Reduce hardware expenses with 30%

"The maxim at Kloostrans is to serve customers at a high service level. We believe that Boltrics contributes greatly to this. Their software combines a standard package with sector-specific prerequisites. This yields even more efficient business operations and we can offer our customers an enhanced service."
Robert-Jan van 't Klooster, Owner at Kloostrans

Microsoft Dynamics 365
Business Central

Still not convinced? Here a few more benefits:

- A modular solution where you decide what you want to use
- An easy to use, cloud-based TMS solution that makes managing your company simple.
- Always up-to-date, even years after implementation

Why Boltrics?

Knowing that logistics service providers independently try to reinvent the wheel, inspired us to develop a branch standard. One solution that the entire branch puts its weight behind. A proven standard, always state-of-the-art solution – thanks to the development power of Microsoft Dynamics NAV. Fast, lean and decisively implemented by Boltrics, exactly according to plan. Without time-consuming customization.
