# Criminal Record Repository & Message Switch

A next generation Computerized Criminal History Product

CRRMS is a state-of-the-art, all-encompassing enterprise Computerized Criminal History Record Management System. CRRMS is built on cross cutting technology to handle any sequence of events in Criminal Justice Systems. Moreover, it can be configured and customized to fulfill the specific requirements of any Law Enforcement Agency.

CRRMS is equipped to handle the entire Criminal Cycle including Fingerprint services, Arrest processing, Disposition, Correction, Parole, Probation, Applicant Processing, Inquiry and Rap Sheet processing. With advanced Inbox, Workflow and Notification services, CRRMS insures your agency never misses any key updates. All these modules on top of a robust Auditing and Reporting system ensure accountability is not compromised at any level of service.

About GCOM

GCOM is a business and technology consulting firm that provides a broad range of professional services designed to deliver cutting edge business and technology solutions for our public sector clients. We maximize agency technology investments by delivering tactical and strategic solutions that not only emphasize getting to go-live, but also look ahead to the long term post production support processes, procedures and organizational assets required to operate technology investments well into the future.

GCOM has extensive experience with the replacement of mission-critical systems in the Criminal Justice and Public Safety as well as health, licensing, and many other domains..

Over the past 13 years, GCOM has been serving the needs of many Criminal Justice and Public Safety agencies. This experience has led to a deep understanding of the complexity associated with implementing a major system.
