

PayDax

SECURE DYNAMICS AX CREDIT
CARD PROCESSING: MADE EASY

WHAT IS IT?

PayDax is a simple, yet powerful Dynamics AX / Dynamics 365 add-on for providing advanced credit card functionality.

HOW LONG DOES IT TAKE?

With PayDax implementation only taking an average of 60 hours or less, advanced credit card processing just doesn't get easier.

WHY US?

As Microsoft Dynamics professionals, we've made the migration process from Dynamics Online Services to PayDax as quick and streamlined as possible.

CORE FEATURES:

- **Process transactions securely using tokenization**
- **PCI PA-DSS Compliant**
- **Automatic payment settlement**
- **Wide variety of areas to process credit cards, including:**
 - Sales Orders
 - Returns
 - Payment Journals
 - Call Center
- **Utilize CyberSource's powerful features, including:**
 - Universal card types include Visa, MasterCard, American Express, Diners, and JCB
 - Regional cards include Mæstro, Carte Bancaire, CartaSi, Aura, Hipercard, and ATM/debit cards
 - Support for PIN-less debit and Chinese debit cards
 - Choice of bank and processor connections in over 190 countries
- **Through Cybersource, you have the benefits of:**
 - Processing transactions all the time, anytime, regardless of peaks in order volume
 - Change and add gateway and acquirer connections as business needs evolve
 - Add fraud management, payment security, account updater and other solutions as needed

Requirements:

- Microsoft Dynamics™ AX 2009 or 2012 (R2 or R3)
- Microsoft Dynamics 365 for Operations
