Being a trusted technology partner of choice for global businesses, Lyst is recognized for its innovative approach towards delivering maximized business value and its commitment to continuous sustainability.

OMNICHANNEL BANKING.

Digital transformation is about fundamentally changing how banks attract, interact with and satisfy consumers, and it affects all levels of your organization.

The relentless speed of digitization and automation, the rise of fintech and regulatory initiatives encouraged financial institutions to become more transparent and nurture richer ecosystems of data and clients; forced them to better foster internal and external collaboration, accelerate culture change and truly empower their workforce and engagement with their clients. interact with people, entities and other systems.

New competition is still developing, big data is still underutilized and banking experiences are yet to improve. Clients started taking more control of their financial relationships and look for digital tools for operation, advice and insight. Banks realized that fintech is an opportunity rather than a threat; Fintech has quickly become one of the biggest sectors in technology, with a 'convergence' in financial services.

There are blurring lines between traditional products, such as retail banking, payments, etc.. and the acceleration of the convergence of technologies including mobile, distributed ledgers, IoT and cognitive computing; enabling customers to do business on whatever mix of channels they choose. How channels are seamlessly unified is becoming as important as what channels are available by removing Friction from the Customer Journey;

Synergies Digital banking solution enables clients to use multiple channels seamlessly to conduct their banking based on transaction type and individual behavior patterns, enabling integrated multichannel user experience across the whole value chain.

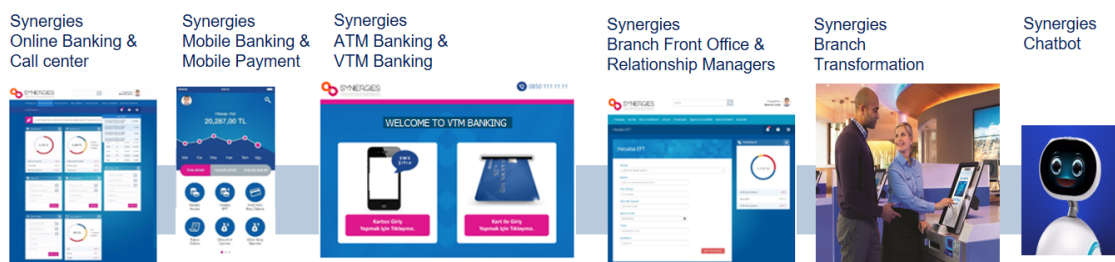

OMNICHANNEL BANKING.

Synergies omni channel management platform is a unified multilingual platform for retail, SME & corporate customers in addition to investors; the solution provides a seamless multichannel banking with a native responsive, adaptable and rich UI design to deliver exceptional user experience and personalization across devices;

The solution is a state of the art technology, provides extensibility features for continuous innovation, customer financial dashboard 360 degree view with drill down facility among many functions and features, such as: Funds transfers, Bill payment, Beneficiary and biller management, Prepaid mobile recharge, cards, accounts, Documentary credit, Financing calculators, fingerprint based biometric authentication, among many other features and functions

Synergies digital banking solution provides a seamless user experience among different deployment, such as: the web for internet banking and mobile banking, the solution can also be deployed and installed from IOS app store and google market place, and across many devices, such as: laptops, tablets, smart phones, ipad, iphone, etc..

Synergies Digital banking is OWASP compliant, highly secured and enables multiple authentication and security methods; The solution enables easy integration with different back office systems such as: core banking solution via Synergies Middleware Application Integration Architecture.

OMNI-CHANNEL MANAGEMENT ENGINE

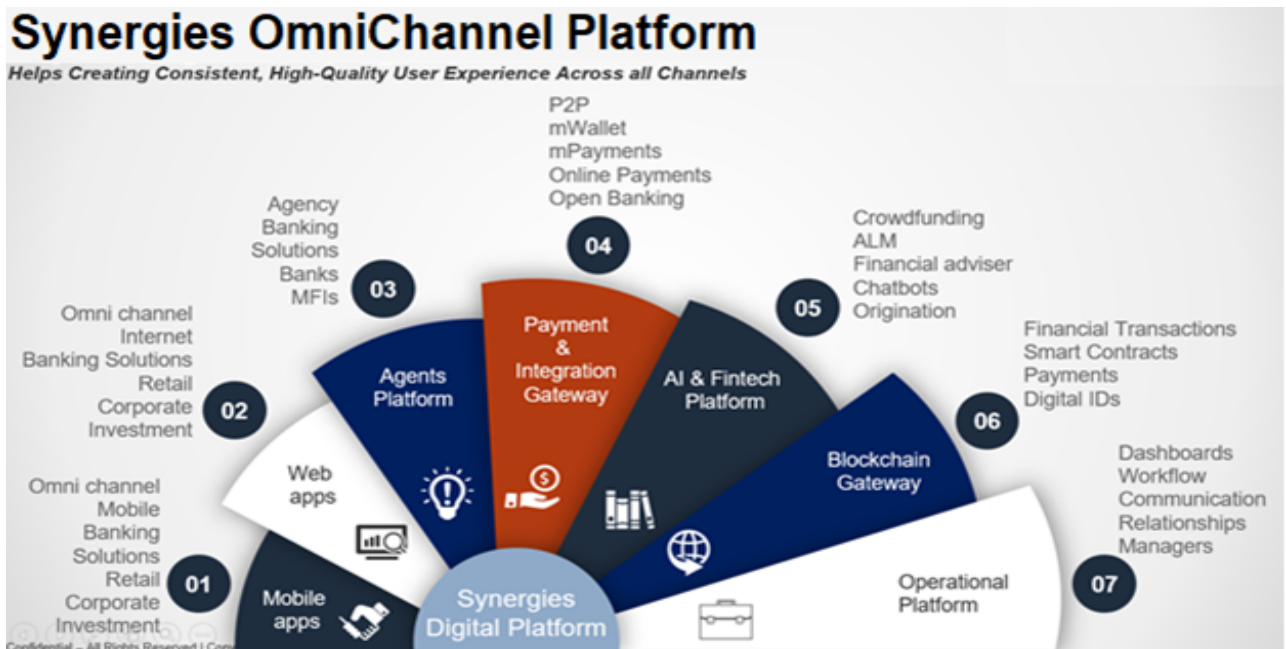

Middleware Application Integration Architecture

OMNICHANNEL BANKING.

A Reliable & Powerful End-to-End Banking Solution.

Unicore's flagship product 'Synergies', has been designed and developed to meet the needs of the Islamic Financial Industry. Fully Sharia Compliant, Synergies has been built to integrate with both Islamic and Conventional Banks worldwide. SYNERGIES provides Optimal TCO, Best ROI and Easy implementation. SYNERGIES is a 5th generation technology solution and is built using a SOA, J2EE platform for generating business applications.

SYNERGIES is a TRUE open platform and runs on most platforms, True Open RDBMS, TRUE Open application servers and True Open Browsers; enabling clustering, fail-over, and load-balancing. Due to the advanced technology of the solution, SYNERGIES does not require local installation of the solution locally on the client machines but is accessible via thin client over browsers over LAN, WAN or VPN. Synergies solution can be deployed in differed modes, i.e. On premise, Cloud Based, and Hybrid. The solution provides the financial institution with an increased security and control, and supports high availability, and reliable service, with a rapid integration with the financial institution existing infrastructure and fits seamlessly into the financial institution existing technology infrastructure. The solution is completely OLTP, STP and component based architecture with Event driven architecture – allowing an extremely agile modernization.

SYNERGIES Solution is component based architecture designed on micro-services and at the same time integrated software system developed specifically from the ground up to meet the specific requirements related to the Global banking requirements and in specific the Islamic banking products and services.

Synergies- Special Features.

Optimal TCO, fast ROI and fast implementation

Highly configurable solution allowing quick time to market new products and services

Multi-lingual, multi-institution, multi-branch & multi-currency

Banks or Financial Institution Model Setup

Built in market practice policies, processes and procedures
