## Cloud Management Solution.

Synergies Cloud Solutions boost financial institutions performance, simplify their operation, increase their reach and ascertain their compliance across the whole Islamic financial value chain; Synergies Islamic banking solutions are deployed via a cloud-based delivery model.

Cloud offers a scalable, manageable technology model that cuts IT hardware, maintenance and development investment, which makes it the ideal deployment choice for a many Banks and financial institutions that are not hampered by intricate IT systems.

Banks and financial institutions remain business, customer and market focused, while entrusting technology partners with their IT service delivery.

The ability to use Synergies Cloud Solutions enables banks and financial institutions have access to a highly secure, always-on, industry-leading Islamic banking and financial technology solutions, without the need for significant internal IT resources and expensive infrastructure of their own. Our range of Cloud based Islamic financial solutions provide end to end focused Islamic finance solutions for different needs:

- Islamic Core Banking Cloud
- Islamic Window Cloud
- Islamic Digital Banking Cloud
- Islamic Digital Banking Cloud
- Islamic SME Banking Cloud
- Islamic Consumer Financing Cloud
- Islamic Investment Banking Cloud
- Islamic Microfinance Cloud
- Islamic Crowdfunding Cloud
- Islamic Ijara Management Cloud
- Islamic Sukuks Trading Cloud
- Islamic Treasury Cloud

Cloud based Synergies Islamic Banking Platform assures your business high levels of availability and reduced downtime; The solution can be easily implemented in different models, Cloud Solutions or Hybrid (this is used specifically where regulations do not allow that the bank data resides outside the country).

Moreover, Synergies Cloud solutions can easily be integrated with bank existing on premise solutions or external solutions and systems Synergies Cloud Islamic Window Solution. For banks wishing to open an Islamic Window, Synergies Cloud solutions can easily be integrated with bank existing on premise solutions or external solutions and systems; thus enabling easy, agile and cost-effective Islamic finance adoption.

Synergies Cloud Solution can be subscribed in different modes, i.e. Private cloud or Public cloud. The solution is multi-tenant enables co-hosting minimizing tenancy cost.

The rapid emergence of cloud computing is transforming the way financial institutions think about how they consume their IT resources it enables them better focus on their business and customer; Early adopters embrace new ways of doing business and can benefit massively from this 'disruptive' approach. This is aimed at allowing your business to perform better and widely by working with our solutions on proven technologies- rather than worrying that technology may disrupt your established business model. From a pure tech point of view, we are transforming the way we distribute our solutions and services to our clients.

## **A Reliable & Powerful End-to-End Banking Solution.**

Unicore's flagship product 'Synergies', has been designed and developed to meet the needs of the Islamic Financial Industry. Fully Sharia Compliant, Synergies has been built to integrate with both Islamic and Conventional Banks worldwide.

SYNERGIES provides Optimal TCO, Best ROI and Easy implementation. SYNERGIES is a 5th generation technology solution and is built using a SOA, J2EE platform for generating business applications.

SYNERGIES is a TRUE open platform and runs on most platforms, True Open RDBMS, TRUE Open application servers and True Open Browsers; enabling clustering, fail-over, and load-balancing. Due to the advanced technology of the solution, SYNERGIES does not require local installation of the solution locally on the client machines but is accessible via thin client over browsers over LAN, WAN or VPN.

The solution provides the financial institution with an increased security and control, and supports high availability, and reliable service, with a rapid integration with the financial institution existing infrastructure and fits seamlessly into the financial institution existing technology infrastructure. The solution is completely OLTP, STP and component based architecture with Event driven architecture – allowing an extremely agile modernization.

The solution is completely web-based, supports and covers all required functions and puts the financial institution in control of the systems thanks to its agile, flexible, customizable workflows and embedded electronic data management. Moreover, the solution provides multiple touch points to enable seamless integration.

It also provide easy install and a straight through upgrades since its completely configu-rable and includes user Exits for additional customization, without the need to re-code the existing customizations or redo the configurations for future upgrades.

SYNERGIES Solution is component based architecture designed on micro-services and at the same time integrated software system developed specifically from the ground up to meet the specific requirements related to the Global banking requirements and in specific the Islamic banking products and services.
