# 365Performance Essentials for Dynamics 365 Business Central

## HIGHLIGHTS:

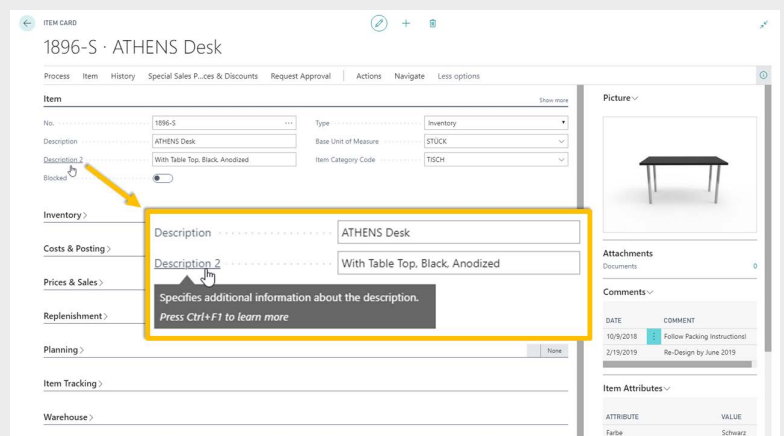

- Comments on documents, customers etc. integrable as factboxes on every page
- Integration of the description 2 field for further information on contacts, articles etc.

## ENHANCEMENTS FOR A BETTER WORK WITH DYNAMICS 365 BUSINESS CENTRAL AND 365PERFORMANCE ESSENTIALS

### INTEGRATION OF THE DESCRIPTION 2 FIELDS FOR FURTHER INFORMATION ON CONTACTS, ITEMS/ARTICLES, RESSOURCES ETC.

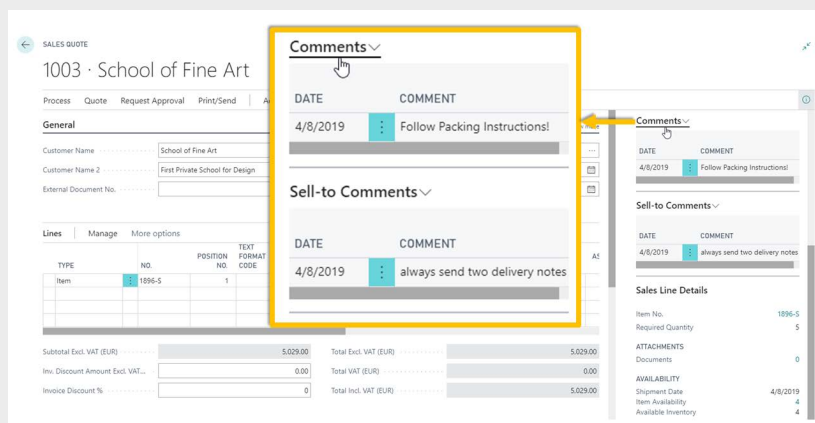

With 365Performance Essentials you get the description 2 field for further specifications on master data like contacts, customers, items and articles, restructures etc.

- With the description 2 field you get more space (100 char) to specify items and articles and display longer names
- The description 2 field can be printed in documents (for more information see [365Performance Documents](#))
- In documents, the description 2 field is printed in a new line and therefore enables a nicer look in documents
- Description 2 field is searchable like any other field in Dynamics 365 Business Central
- With the integration of this field in master data and documents you have a lot of possibilities for the naming of items, articles, resources etc.

### COMMENTS ON DOCUMENTS, CUSTOMERS, ETC. INTEGRABLE AS FACTBOXES ON EVERY PAGE

The integration of the comments factbox for master data and documents gives you the possibility to display important information at first glance without further clicking needed.

- Show additional comments on items and articles to inform your sales team
- Display notes on contacts or customers to optimize communication among the lifecycle
  - Notes on customer specific discounts
  - Remarks of peculiarities
- Integrate comments on customers on the pages of sales documents
- Show remarks on vendors on the pages of purchase documents
