

# SUITE ENGINE RPM

ENTERPRISE SOFTWARE FOR  
EQUIPMENT RENTAL COMPANIES

(888) 695-5010 [SUITEENGINE.COM/RPM](https://SUITEENGINE.COM/RPM)

# Equipment rental: Asset utilization optimization

How do you know that your rental business is operating at maximum efficiency? Asset underutilization means money's being left on the table – you can't afford to do that and you can't spend the bulk of your time looking for data you need to make smarter business decisions.

## Challenges

So, how do you track rental asset utilization, revenue and costs, margin, ROI, and all of the other back-end operations, such as pricing and invoicing, maintenance, CRM, and reporting?

## Ideal solution

Rental Process Management (RPM) can handle all aspects of your rental business: rentals, sales and operations, fleet asset management, service work orders, parts management, accounting, etc.

## Desired outcomes

Perhaps the best part is that all of your data is stored in one place – one dashboard – in the cloud, in the office or on the go! You'll be able to drive informed business decisions in no time.

# Suite Engine, LLC Rental Process Management (RPM)

It's everything you need to run your rental business in the office or on the go – all in the cloud!

## All in one place – one dashboard

Get actionable insights into your rental business that help drive smarter decisions faster.

## Avoid billing errors and speed up A/R

Flexible, repeatable billing and pricing helps you get to what matters: faster processing and collections.

## Powered by Microsoft Dynamics 365

Our rental-specific solution + Microsoft technology means you're poised for unlimited growth!

# Rental Process Management (RPM) + Microsoft Dynamics 365

No matter the size of your rental company today, by harnessing the power of Microsoft Dynamics 365 and Suite Engine's RPM, you're positioned to grow at any rate, to any size, without making costly changes to your ERP system.

## Rental-specific + Microsoft-powered

Dynamics has decades of proof it is the best ERP system for your growing business. Couple that with an integration designed specifically for rental, by rental experts, and you've got it made.

## Rental units + fixed assets

RPM provides you with operational capabilities for its rental units that are fully integrated with Microsoft's fixed asset accounting functionality. This is streamlining processes at its best.

## Rental contracts + A/R integration

The full integration between rental contracts and Microsoft's back-end financials provides customer service reps with relevant customer data at their fingertips.

# Customer success: 24HR Safety

"We've been able to provide accurate quotes because we now have current item information all on one screen."  
– Tony Aube, Project Specialist

Retrieving immediate rental unit insight for sales and customer service is no longer difficult because of RPM and the intuitive interface and reporting capabilities of Microsoft Dynamics 365.

## Automation = efficiency

RPM adds automated billing, including credit card processing, within Microsoft Dynamics 365, increasing rental billing efficiency exponentially.

## Implementation made easy

With automated implementation tools provided by Microsoft and fixed-price implementation services provided by Suite Engine, the process is simplified and easy to budget for.

## Always up-to-date

Service updates by Microsoft and RPM are regular and consistent so that you're always on the latest version. You'll never need to do a costly upgrade again!

Let's see if RPM is a good fit for you. Contact Suite Engine today!

# RPM is now available for Microsoft™ Dynamics 365 Business Central

- ✓ Manage the complexity of the equipment rental industry with the simplicity of cloud-based software.
- ✓ Improve every aspect of your rental business and do it all in one place – all in the cloud.
- ✓ Get immediate insight into your rental assets and operations – whether you're in the office or on the go with the mobile app.

The screenshot shows the Microsoft Dynamics 365 Business Central interface. At the top, there is a navigation bar with the Dynamics 365 logo and 'Business Central'. Below this, the main header reads 'Suite Engine Rentals' with a dropdown arrow, and 'Posted Documents' with a dropdown arrow. Underneath, there are links for 'Rental Quotes', 'Rental Contracts', 'Pre-Billings', and 'Work Orders'. A section titled 'ACTIONS' contains several buttons: '+ Rental Quote', '+ Pre-Billing', '+ Work Order', '+ Rental Contract', '+ Work Quote', and '> Functions'. Below the actions is an 'Activities' section with a dropdown arrow. It displays two summary cards: 'RENT. QUOTES - NEW' with a count of 3 and '> See more', and 'CONTRACTS - NEW' with a count of 4 and '> See more'. At the bottom, there is a 'RENTAL CONTRACTS' section with three summary cards: 'ALL' with a count of 25, 'LATE INVOICING' with a count of 23, and 'INVOICING TODAY' with a count of 0.

RENTAL CONTRACTS		
ALL	LATE INVOICING	INVOICING TODAY
25	23	0
