

# Better **RFP** Response Starts Here

## The Features You Need to Win More Deals

- **Best in Class Import and Export Capabilities**

Import easily from any source, like docs and spreadsheets. Quickly export answers to the original source file or a custom template.

- **Streamlined Project Management**

Know the exact status of your RFP responses. Leveraging a robust Salesforce integration, insightful dashboards will inform your next move.

- **Intelligent Answer Library and Auto-Response**

Find a winning response in the searchable answer library. Take advantage of auto-response for the perfect answer when you don't have time to think.

- **Out-of-the-Box Dashboards and Reports**

Instant insight into your RFx status, so you can have visibility of the entire process. Let data drive your next response.

- **Integrations to Support Your Workflow**

Connect your favorite technologies and get immediate access to content with strong bi-directional integrations with many popular software solutions.

“ On average, a company responding to 2-4 RFPs per month can expect to **save a minimum of 80-100 hours in time** spent researching and answering questions. ”
