

Smart Swedish VAT

Create a Swedish VAT statement automatically and submit your VAT reports electronically.

Automate your VAT statements for Sweden.

Are you manually changing your VAT statement when it needs updating? Do you manually report the VAT return and the EC sales list?

With Smart Swedish VAT you no longer need to manage your VAT statement manually and when you are ready to submit your VAT reports, you simply export the VAT return and EC sales list as files which can be uploaded to Skatteverket.

Smart Swedish VAT consists of:

Functionality to automatically create and update a VAT statement according to information in the VAT posting setup.

VAT return as a file which can be uploaded to Skatteverket.

EC Sales list as a file which can be uploaded to Skatteverket.

Supported editions:

For this app only Dynamics 365 Business Central Essentials is required.

Supported Countries:

Sweden
