- Their personal links,
- Search preferences,
- Favorite apps
- Etc...

## Bring Employee's personal data upfront

- Employee profile
- My projects/teams
- My Outlook emails
- My social posts
- Etc...

## Activity Notification

Stay up to date and view recent activity

## Email Notifications

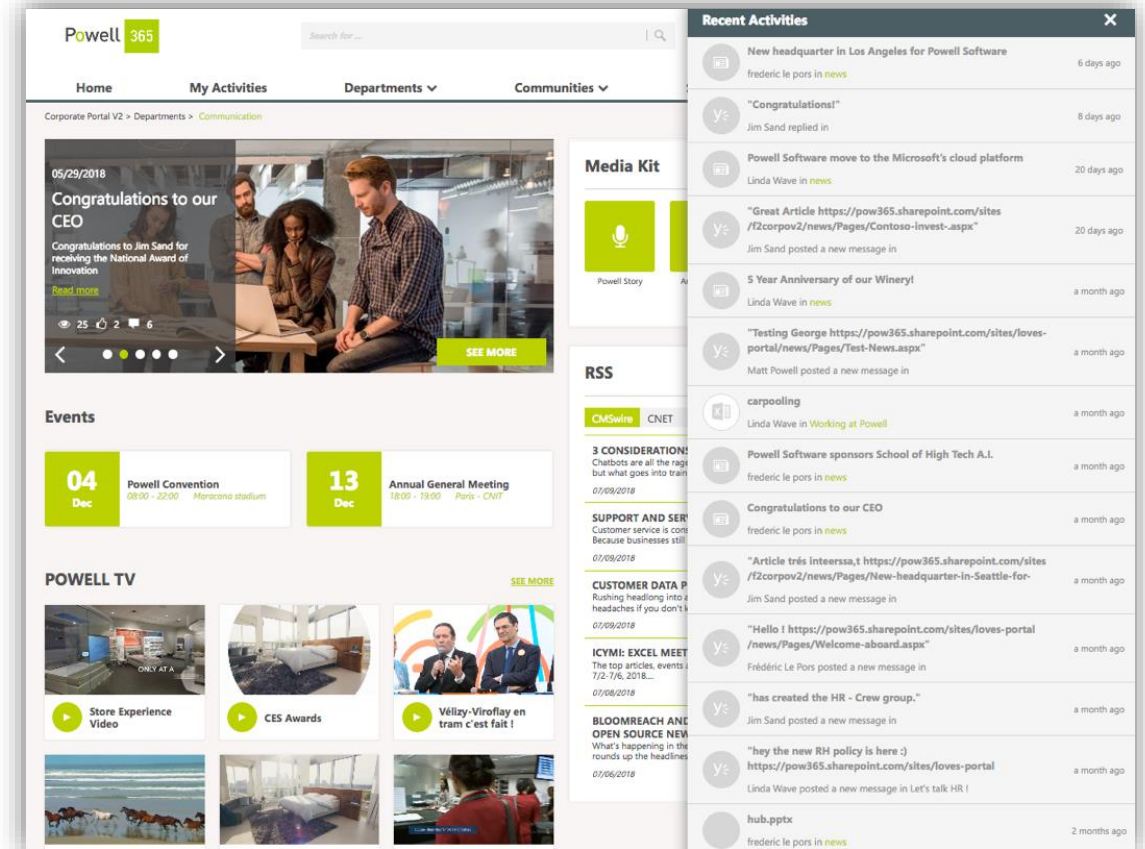

Subscribe to email notifications when content is created or changed

## Push Notification

Push notifications to mobile phones

## Follow & Favorites

Track, bookmark and favorite content, users and sites

The screenshot displays the Powell 365 corporate portal. The top navigation bar includes 'Home', 'My Activities', 'Departments', and 'Communities'. Below this, the main content area features a large banner for 'Congratulations to our CEO' dated 05/29/2018. To the right, there's a 'Media Kit' section with a microphone icon and a 'Recent Activities' sidebar listing various news items and user interactions. Below the banner, there's an 'Events' section with two upcoming events: 'Powell Convention' on Dec 04 and 'Annual General Meeting' on Dec 13. The bottom section is titled 'POWELL TV' and contains several video thumbnails, including 'Store Experience Video', 'CES Awards', and 'Vélizy-Viroflay en tram c'est fait !'.

# POWERFUL NAVIGATION POWELL 365

Implement the best of SharePoint Online and Powell 365 to provide an intuitive and powerful Navigation story.

- Configure our enhanced Global Mega Menu
- Manage Left/Current Navigation
- Use SharePoint Breadcrumbs
- Manage custom footer navigation

Share the same navigation across your SharePoint architecture

- On-line
- On-Premises

# DISCUSSIONS & SOCIAL POWELL 365

**Powell 365 Integrates Enterprise social Networks like Yammer into a seamless experience.**

Comment on news, blogs, communities & support

- News, Video Comments
- Department Social Collaboration
- Community Social Collaboration
- IT Support
- Team Discussions

**Connect also to Facebook, Twitter, Instagram and LinkedIn**

Follow the activities of your employees and track the success & usage of your intranet

## Google Analytics & Power BI

Complete integration with Google Analytics

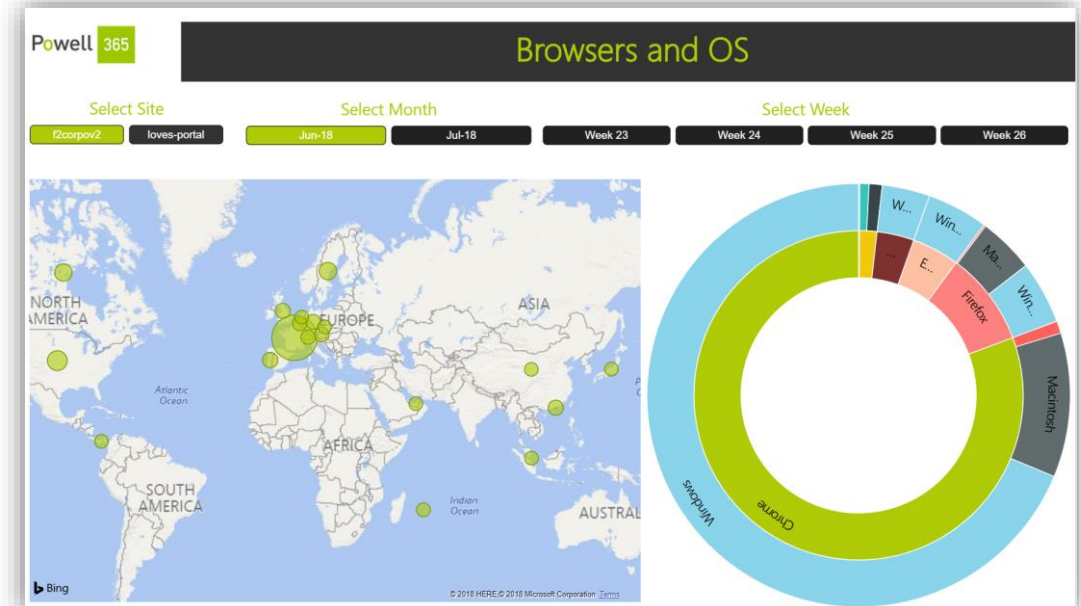

Delivers a complete dashboard into Power BI and leverages the data with additional user profile properties (Office, Job title, unique identifier...)

- Page views
- Location
- Departments
- Job Title
- Navigation in the portal
- Browsers & Operating system...

## Extend the analysis

Compatible with the usage report within SharePoint and the Office 365 adoption pack

You can also use a 3rd party solution available for SharePoint like Cardilog, Web Trends or Tryane...

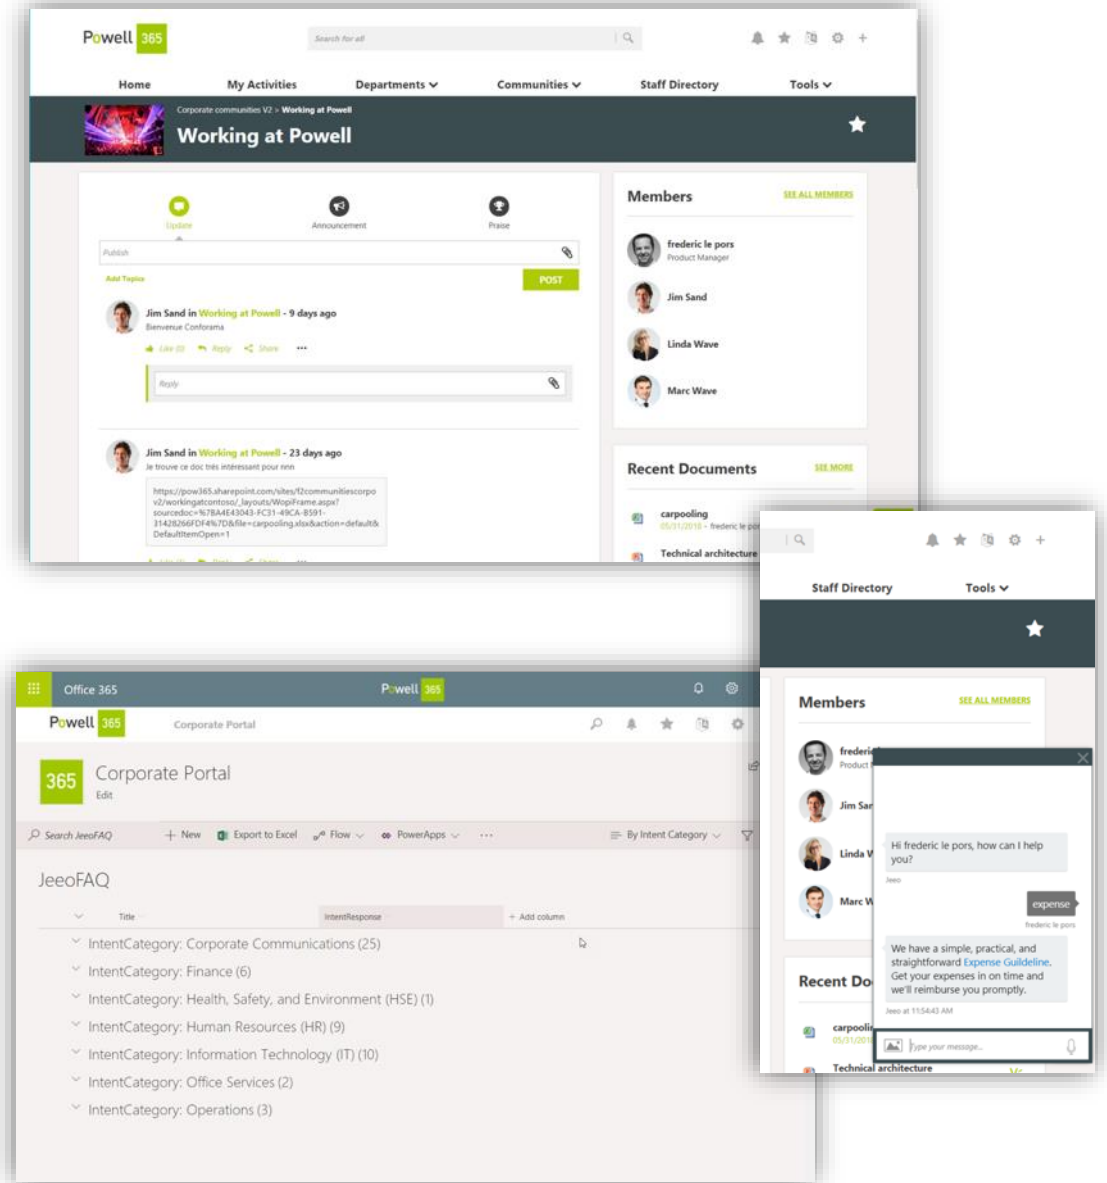

# CHATBOT SUPPORT POWELL 365

## Complete integration with any Chat Bot solution compliant with the SharePoint development standard

Close partnership with **Jepeddo** ( [www.jepeddo.com](http://www.jepeddo.com) ) and meet Jeeo, the world's finest Corporate Concierge

- Jeeo and Microsoft AI (LUIS) interpret common user requests (intents) of a Corporate Intranet (eg. Where do I find job postings? How many vacation days do I have left?).
- Jeeo quickly guides users to the right content, anywhere across a Powell-365 environment.
- Business users can easily 'train' Jeeo from within Powell-365.

# ONE SINGLE PANE OF GLASS

## POWELL 365

Extend the SharePoint functionalities with our 30+ web parts  
Follow your activities within the portal and in all Office 365 solutions in a single place.

### Outlook

Last emails and next events from Outlook Online

### Delve

Access your latest documents and discover popular documents based on the Graph API

Follow the latest Company discussions with a complete Yammer experience (add files, praises, announcements...)

### Planner

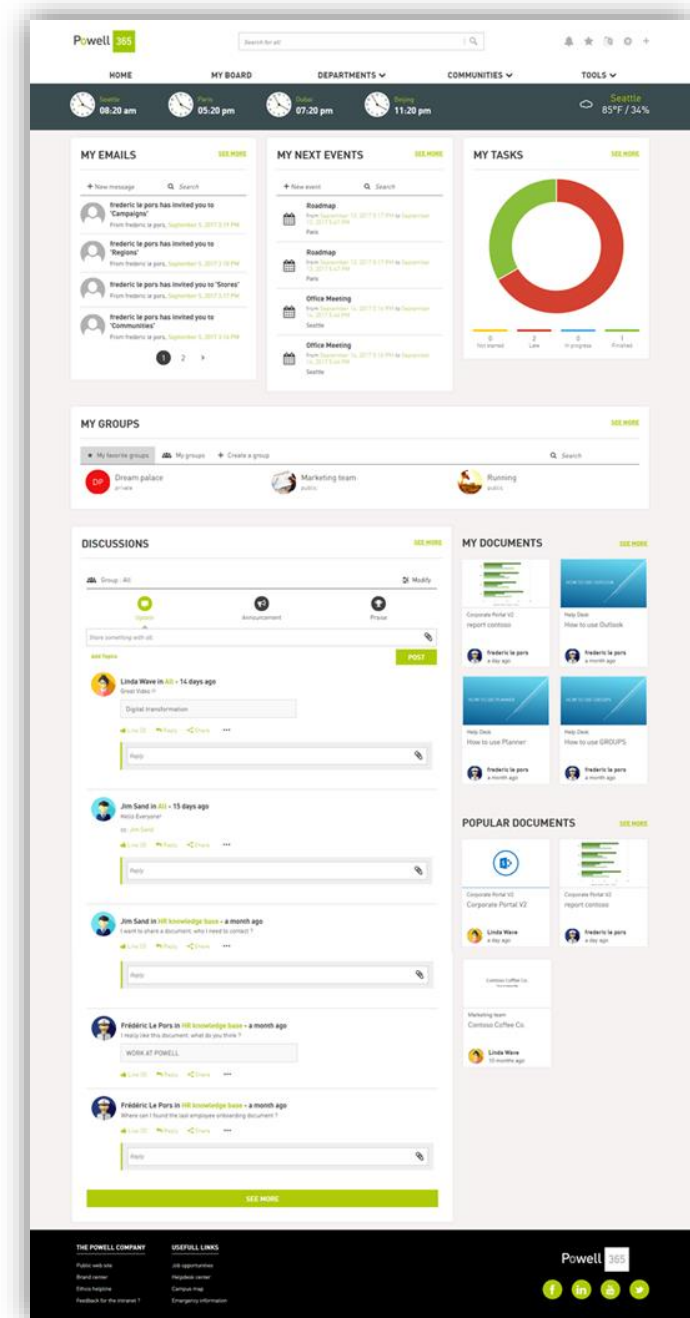

Follow and manage your tasks in Planner

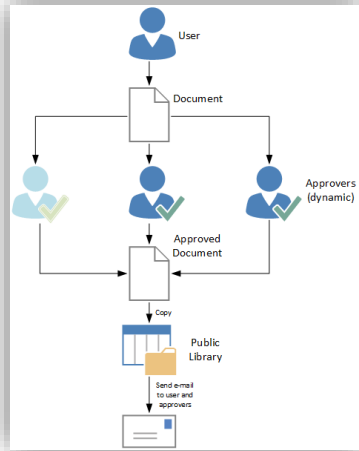

### Groups & Teams

Instant access to the latest content in your Microsoft Groups

### And more...

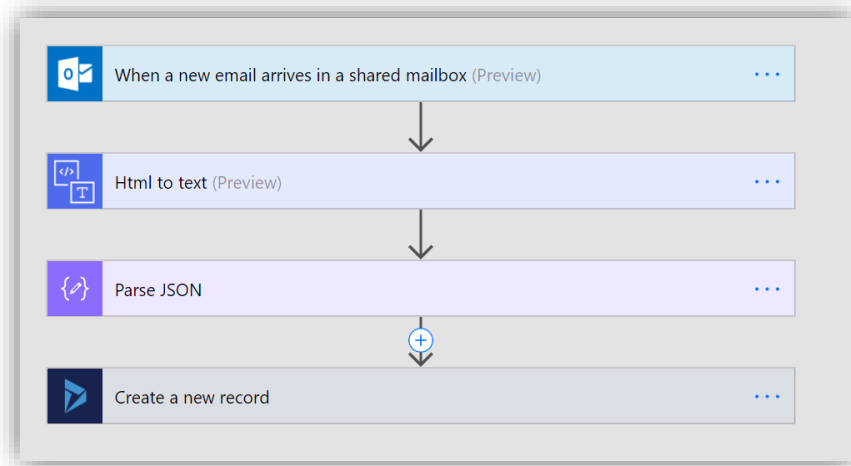

Stream, Office Video, Facebook, Twitter, Youtube, Instagram, weather, share price, quick poll, ...

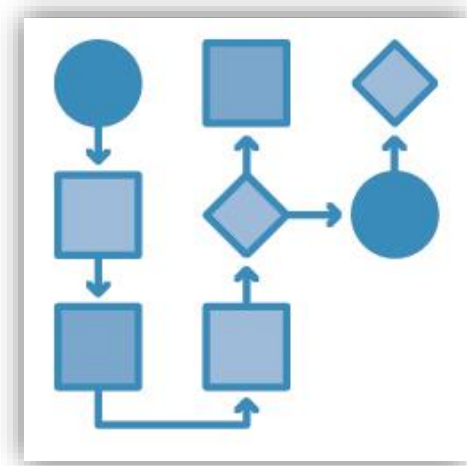

## SharePoint Workflow

Powell 365 is compatible with the standard workflow provided out-of-the-box by SharePoint

## Microsoft Flow

Because Powell 365 is a fully native SharePoint solution for the content management, you can leverage the standard SharePoint Workflow with Microsoft flow to build complex validation scenarios

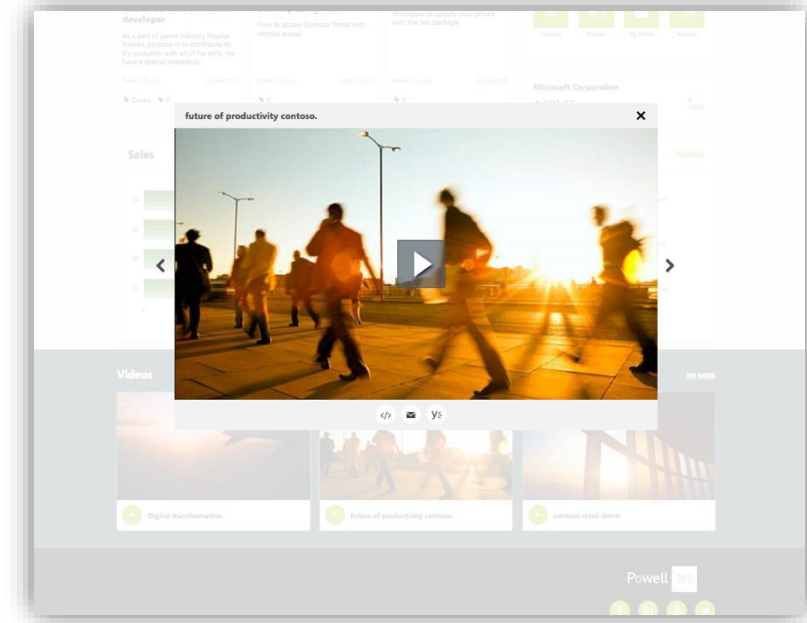

## Third-party solutions

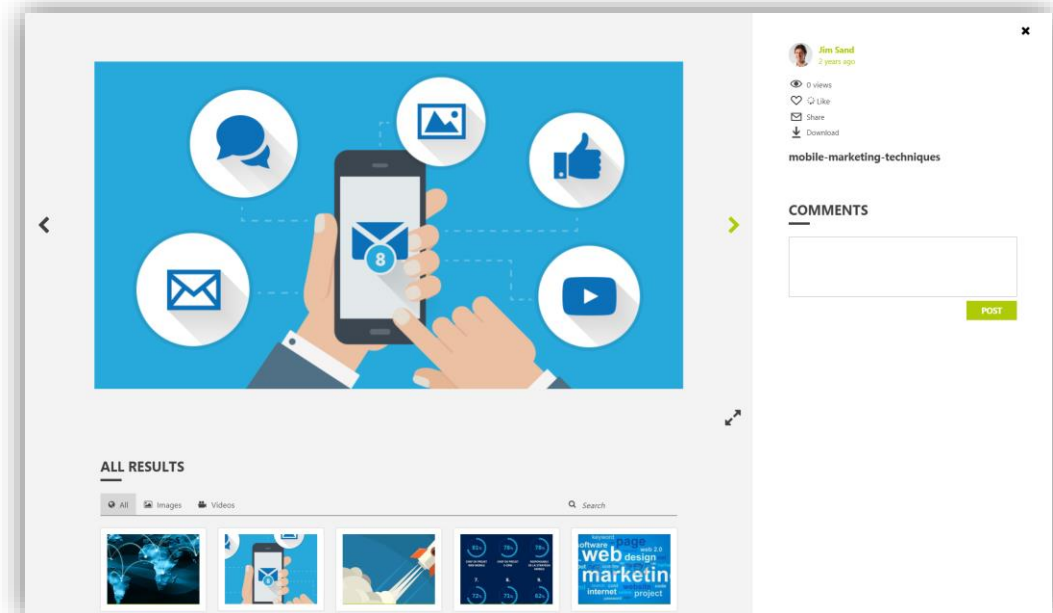

You can also extend Microsoft workflows with any kind of 3<sup>rd</sup> party solutions compatible with Microsoft SharePoint like K2, Nintex and more...

## Communicate and publicize videos and play them directly from the intranet

- Play Videos directly from the intranet
- Comment and share via the Power of Yammer!
- Connect to Office Stream, Office 365 Video, YouTube and Vimeo

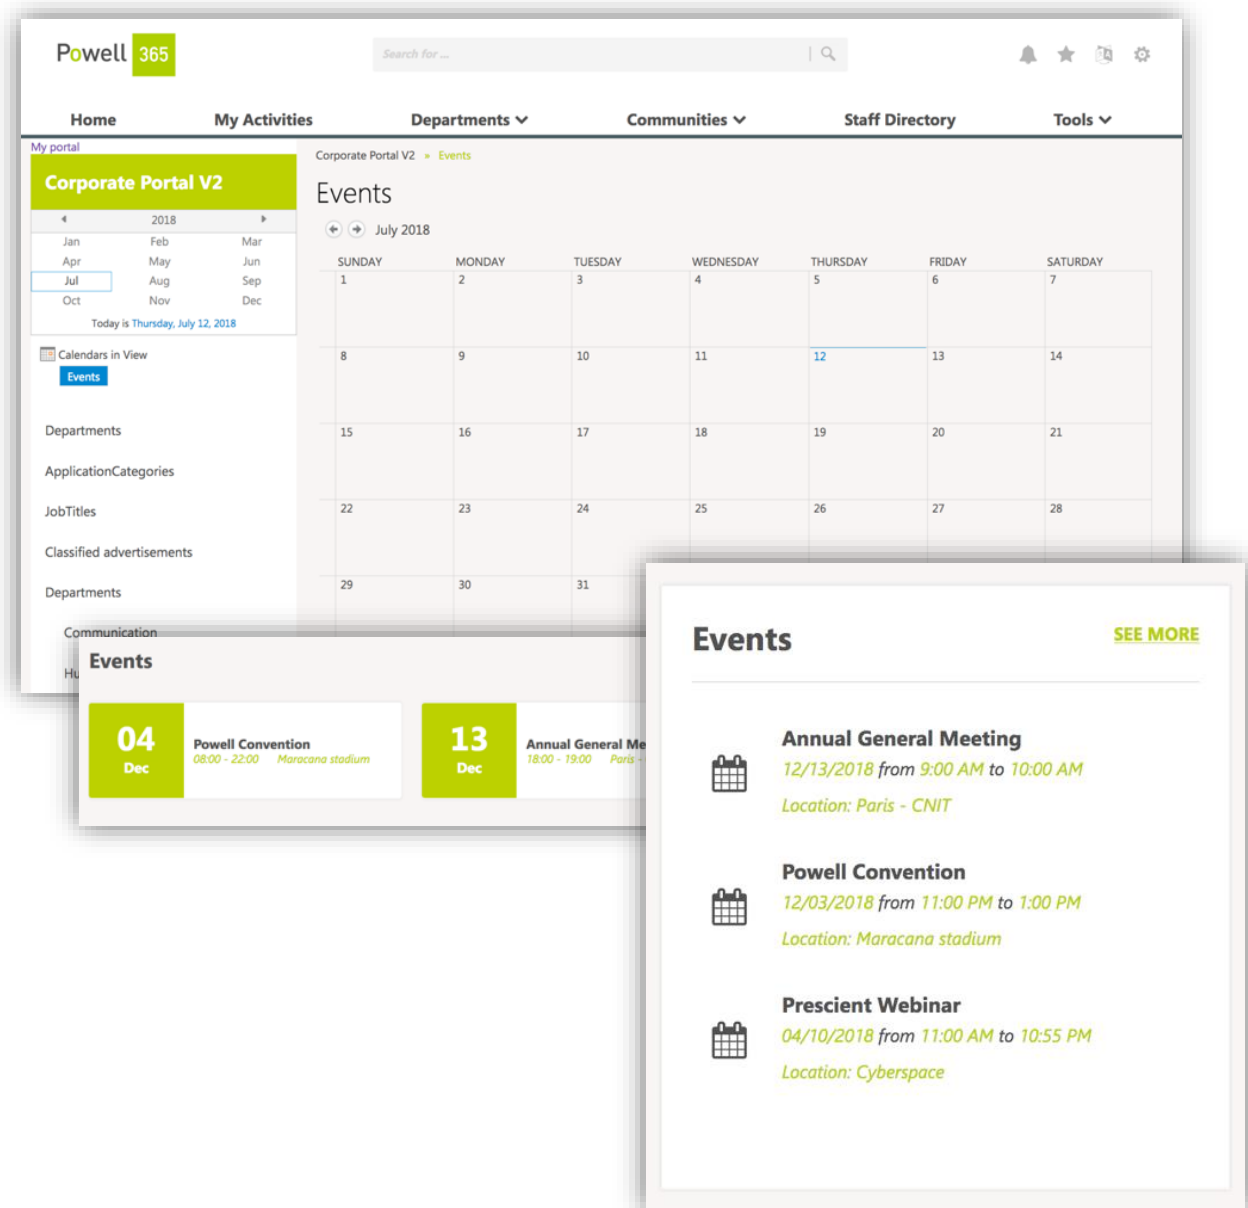

## Share & highlights your images with a beautiful image gallery.

## Powell 365 enables to share events and visualize them in various formats

Leverage SharePoint calendars to store events

- Create events in SharePoint calendars
- Connect SharePoint calendars to Outlook
- Connect multiple calendars and color code events
- Display and create Outlook events

The screenshot displays the Powell 365 Events interface. The top navigation bar includes links for Home, My Activities, Departments, Communities, Staff Directory, and Tools. The main content area is divided into two sections: 'Corporate Portal V2' on the left and 'Events' on the right. The 'Corporate Portal V2' section features a monthly calendar for July 2018, with the current date, Thursday, July 12, 2018, highlighted. Below the calendar is a list of 'Calendars in View' including Departments, ApplicationCategories, JobTitles, Classified advertisements, and Departments. The 'Events' section shows a calendar view for July 2018, with the current date, Thursday, July 12, 2018, highlighted. Below the calendar is a list of events, including 'Powell Convention' (08:00 - 22:00, Maracana stadium) and 'Annual General Meeting' (18:00 - 19:00, Paris). A detailed view of the 'Annual General Meeting' event is shown in the foreground, listing the date (12/13/2018), time (9:00 AM to 10:00 AM), and location (Paris - CNIT).

# EMPLOYEE DIRECTORY

## POWELL 365

### Powell 365 Employee Directory will help you find expertise or colleague information

Find others by searching by name, refining results by expertise, job title, etc.

- Explore the Employee profile stored in Microsoft Active Directory, SharePoint or Delve
- Refine by Department, Job Title, etc.
- View Org Chart
- Explore latest documents

The screenshot displays the Powell 365 Employee Directory interface. On the left, there are search filters for Department (IT (5), Marketing (3), Executive management (2)), Job Title (CEO (2), Marketing Manager (2), Product Manager (2), Brand Manager (1), CTO (1), Show More), Office (Tokyo (2), Ushuaia (2), New-York (1), Paris (1)), and Keywords (Private Equity (2), AngularJS (1)). The main area shows a grid of employee profiles. A dashed yellow line highlights the profile of Jim Sand, which is shown in a larger view on the right. The profile for Jim Sand includes his name, title (Project Manager, IT), phone numbers (443632-343-3445, 0101020304, 0987654321), email addresses (jsand@powell-365.com), and a link to his profile page. Below the profile, there is a section for 'Last documents' listing several documents, and an 'Organisation' section showing the hierarchy from Powell Admin CTO to Jim Sand Project Manager.
