

What is PowerAttachment?

Are attachments in your CRM system taking up all of your system storage? With PowerAttachment you can automatically set attachments to sync to your SharePoint site – stripping the actual attachment from CRM and replacing it with a link to the document that is now stored in SharePoint. PowerAttachment will work with all entities and their attachments. If you wish to leave attachments intact for a specific entity, simply define the entity in the PowerAttachment configuration and the solution will not touch those attachments!

How Do I Get Started?

Try any of our PowerPack Add-ons FREE for 30 days with no risk and no pressure to commit! There are no setup fees, no long-term contracts (simply month to month), and no credit card information required! Click [here](#) to learn more.
