

What is PowerCharge?

Get ready for PowerCharge! PowerCharge enables you to charge your customers' credit cards from directly within your Microsoft Dynamics CRM application without having to store sensitive credit card information locally!

- Charge and refund credit cards from within your CRM
- Workflow compatible – examples include:
 - Setting up workflows to process weekly, monthly, or annual subscriptions
 - Transactions run instantly, and the status (succeed, fail and why) are passed back to CRM within seconds
 - Creating a workflow that emails a customer a receipt or a transaction failure notification
 - Charge Visa, Mastercard, Discover and American Express credit cards
- Choose ePN, Beanstream, authorize.net, or Helcim for your payment gateway
- Process ACH payments (if you use the authorize.net payment gateway)
- Upload historical transactions into CRM using PowerCharge

How Do I Get Started?

Try any of our PowerPack Add-ons FREE for 30 days with no risk and no pressure to commit! There are no setup fees, no long-term contracts (simply month to month), and no credit card information required! Click [here](#) to learn more.
