FAQ

Proofs

Diploma

It's time to protect your brand image **&** the value of your diplomas!

BCdiploma, a blockchain publisher specialized in higher education, guarantees the authenticity, security and accessibility of your certificates.

☑ Create an environment of trust ...

With 2 out of 3 resumes being fraudulent and background checks inevitable, BCdiploma gives you the opportunity to build a relationship of trust with your applicants, alumni and partners.

... and be the leader of the student experience!

Thanks to native integration on LinkedIn, your graduates will be able to give a tangible proof of the education they received and be hired!

☑ Ensure that all data is secure ...

The blockchain has advanced security features. Not only will your data be completely secure, but it will also be accessible at all times.

... and save valuable time!

Automate the sending and storage of your certificates from your own data, and have a certified history ready for use.

No need to answer recruiters' phone calls!

☑ Strengthen your innovative brand image

Accelerate your digital transformation! Using our technology to certify your diplomas strengthen your brand image as it shows that innovation is in your DNA.

Upload as many certificates as you want, multilingual and 100% customizable!

Encrypted documents on the blockchain with unlimited access, which meet the criteria of data protection laws
