

BCdiploma

your **blockchain** certificates

**Certified diplomas
in a heartbeat**

www.BCdiploma.com

Your major challenge: **to be even more competitive**

In the highly competitive world of colleges and universities...

Your **brand image**
and the **value of your diplomas**
have to be **protected**

Innovate and stand out with the blockchain!

Picture a world where your **diplomas & certificates** are **certified with only one click...**

Thanks to its unique blockchain technology, **BCdiploma** allows you to **dematerialize your certificates**, in **any language** and in the **most secure way**.

With only one click, your graduates can prove the authenticity of their success. **Save time** and keep your budget under control!

With BCdiploma, be the leader of the student experience

Upload all diploma-related data via our application or our API. **Automate** the sending of your certificates as soon as the data are available.

Each student receives a **secure and freely accessible link** and can **highlight his or her training** on social media, resumes and job boards.

With only one click, and free of charge, **recruiters can verify the authenticity** of the student's diploma and... hire your graduates!

The image illustrates the integration of BCdiploma with LinkedIn. On the left, a LinkedIn profile for Paul Newton, Project Manager at ESCP Europe, is shown. The profile highlights his training at ESCP Europe, specifically a Specialized Master's Degree in International Project Management (2017-2018). A blue arrow points from the 'Link to certificate' button on the profile to a digital certificate displayed on a smartphone on the right. The certificate is from ESCP Europe, awarded to Paul Newton for a Specialised Master (MS) in Management des Projets Internationaux. The certificate is signed by Gérard NAULLEAU, Scientific Director, and Frank BOURNOIS, Executive President & Dean. The certificate is awarded on May 16, 1988, in Paris Bème (75). The smartphone also shows the ESCP Europe logo and the text 'CCP PARIS ILE-DE-FRANCE'.

With **BCdiploma**, make your dematerialization project a **success**

Ensure that all data is **secure**

Not only will your data be completely secure, but it will also be accessible at all times. Your documents are encrypted on the blockchain with unlimited access, and meet the requirements of data protection laws.

Save valuable time

Automate the sending and storage of your certificates from your own data, and have a certified history ready for use.

No need to answer recruiters' phone calls or apply for the reissuance of certificates!

Create an environment of trust

With 2 out of 3 resumes being fraudulent and background checks inevitable, BCdiploma gives you the opportunity to build a **relationship of trust** with your applicants, alumni and partners.
