

Organimi

Charting Your Future.

Looking to organize your workplace structure in a simple, easy to use, org chart? Are you tired of using non-org chart solutions to map out your organization? Organimi's focus is making the best purpose built org chart software on the market.

Organimi is a powerful tool that allows you create an organizational chart in minutes. You can do so much with Organimi, including:

Create an org chart from an existing template or from scratch!

Integrate with Microsoft ActiveDirectory, Microsoft Office 365 and Gsuite or any other system that provides a CSV or Excel output

Share via a public URL link, private email invitation or embedding it on your website

Export your chart to a PDF or PNG to bring to company meetings

Print the whole chart or specific subsections of your chart on 60 different paper sizes

Custom Fields feature allows you to add customized text to any role card

Add photos to jazz up your chart and show each member from your organization

Use the Smart Chart Legend™ to visualize information on your chart with badges or colors

Our Colour Coding feature allows you to colour code a section of your chart, a member, or a department for quick visual representation your organization

Move around roles and members by using the Drag & Drop feature

Connect LinkedIn profiles to role cards so everyone in your organization stays connected
