

Infor Cloverleaf Cloud

Cloud technology improves outcomes

To focus your attention and resources on improving patient care and maximizing safety, it pays to eliminate unnecessary costs and distractions. One of the more glaring and expensive distractions for health care organizations is the need to maintain a large, costly IT infrastructure to host and operate the systems that run and connect your health information systems. Cloud technology now offers a quick, safe, and economical way to run critical information systems, while reducing IT management responsibilities that lie outside the central mission of a health care organization.

Experienced technology partners yield better results

72% of US hospitals with more than 150 beds trust Infor® solutions to improve performance and deliver better care. Those hospitals know that you can share your patient data between care providers more easily and make better strategic decisions with Infor Cloverleaf® Cloud, a reliable, proven platform for healthcare integration and interoperability. Infor's extensive healthcare technology offerings address the full range of challenges faced throughout the healthcare industry, because they're built on Infor's specialized expertise at implementing healthcare technologies at top healthcare organizations worldwide.

Flexible solutions expand your choices

Your healthcare organization may be at a point where it makes sense to learn how the cloud can enhance and extend your capacity for data exchange. Infor Cloverleaf Cloud gives you a faster, more economical way to begin building the essential foundation for securely consolidating and sharing patient information. It gives you everything you get from an on-premise

Infor Cloverleaf is rated the #1 complex data and IT integrator solution in the 2014 Black Book State of the Enterprise HIE Industry report.

installation of Infor Cloverleaf, but without the maintenance fees and hardware costs. In addition to being a cost-effective solution in itself, Infor Cloverleaf Cloud enhances the value of your existing investments by supporting exchange of health data from any system within your healthcare digital network and community. As a result, you get:

- **Reduced costs.** With no on-premise hardware to maintain and minimal administration, you'll be able to quickly reduce your IT costs.
- **Improved safety and security.** Infor Cloverleaf Cloud's HIPAA-compliant hosting environment helps ensure patient confidentiality and regulatory compliance.
- **Disaster recovery.** You can establish a standby virtual machine in a virtual private cloud to serve as a rapid backup for any emergency.
- **Greater flexibility.** You can host your entire Infor Cloverleaf suite in the cloud, just host individual add-ons, or only use the cloud as a testing and development environment.

Above all, the Infor Cloverleaf Cloud gives you a rapid path to gaining the power of Infor Cloverleaf, the most trusted integration solution for healthcare information technology (HIT) among leading hospitals worldwide. Hosted in a secure, private environment, it offers you the benefits of full compliance with HITECH Act and HIPAA regulations, without the complexities of managing an elaborate IT infrastructure on your own.

The strongest solutions are safest

By reducing the cost and effort you'd otherwise devote to hosting, maintaining, and upgrading software, Infor Cloverleaf Cloud frees resources that you can recommit to more pressing priorities. You'll also gain greater flexibility over how you host and deploy your critical HIT resources. As a result, you'll be able to improve care collaboration supporting full continuity of care, and build your standing as an accountable care organization and trusted healthcare resource to your community.

More than 4,000 healthcare organizations worldwide trust Infor Cloverleaf for solving their most complex interoperability challenges.
