

Installation sheet [cashflow](#)

## 1. Install and setup

1. Access the Business Central Setup&Extensions menu:

2. Search for the Nunsys Cashflow application..
3. Selecting the Nunsys application will show the installation wizard.

4. You are ready to install the app. Once installed, from the Assisted Configuration menu you can in a few minutes make your Cash-flow forecasts.

For more information, see our [OPERATION GUIDE](#).  
You can also find support in our web page: <https://www.nunsys.com/contact/>

## 2. Uninstall

To uninstall the application, access the same menu as in previous point and select "Uninstall".
