ADP & D365FO Integration

Integrate ADP and Dynamics 365 Finance and Operation Integration to comprise mass data with business management methods.

IT'S WHY WE WORK TOGETHER

AXGURU

ADP   Microsoft Dynamics® 365

Human Resource Data

Integrate employee demographics, employee benefits and vital hiring to termination information between two systems, allowing user to reduce the hassle of entering data into both systems.

Payroll Data

Payroll Journal entries are passed from ADP to ERP GL quicker and easier following a payroll cycle. This key financial data integration allows clients to make strategic business decisions today and create plans and strategies for the future.

Timesheet Data

Integration employee timesheet data real time to effectively manage resource cost allocation and resource and project efficiency. It helps client to have more clear insights into project cost and resource needs.

AXGuru provides **ADP Integration**, a leading human capital management (HCM) platform, with **Microsoft Dynamics 365 Finance and Operations**

Approximately 60,000 clients leverage the power of **ADP Integration** with one of the leading **ERP D365** helps manage their businesses more strategically and effectively. This integration offers clients a cloud-based solution for payroll, HR, time and attendance, tax services, benefits and talent management, which helps organizations achieve:

- **Greater insights:** Real-time visibility of financial and HR transactions for faster and informed decision-making.

- **Efficiency:** Once users input employee information, it is dynamically updated in both systems.

- **Peace-of-mind:** Proprietary integration technology provides secure, encrypted, two-way data access between applications.
