Remittance Advice Email by ASQiT Ltd.

<https://www.asqit.co.uk/products/remittanceemails>

- Features -

Specific Email Address

Define directly on the vendor card the specific contact to send remittance advice email to, or mark the vendor as excluded from the remittance process.

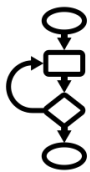

Save Sent Emails

Automatically add CC or BCC recipient to all outgoing remittance advice emails to save the copy of the mail in the internal company's email Inbox.

Preview Emails

Preview remittance advice emails before sending them, to capture vendors with missing emails; or use test mode to preview email layouts and attachments.

Control Process Flow

With a range of configuration options, control the remittance email process: whether to allow using generic emails, whether to ignore vendors with missing emails or flag as an error, and much more.

Design Layout

Easily change the layout of provided remittance advice report using Word. Also define how the email body and subject are created
