We are today working with many of the Top **200** global fashion houses

OUR SOLUTION CAN GIVE:

30 - 40 %
higher inventory
accuracy

10% - 15%
reduction in days
in inventory

0.5% - 1%
increase in profit

5% - 10%
reduction in
markdowns

Quickly create regular new collections with many styles in different colors and sizes, resulting in large numbers of variants.

Easily add information to all these variants like pricing, replenishment settings and other parameters.

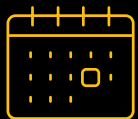

Efficiently use the styles with their many variants in all business processes, like sales, purchases, planning and transfers.

Required in the fashion industry

- 
- Colour, Size & Fit Handling
 - Collection Planning
 - Omni-Channel Planning
 - Sales Order Management
 - Season Management
 - Product Data Management
 - Pre-Packs

Made to measure

- 
- Pre-Configured for Fashion
 - Flexible & Scalable
 - Shorter Decision Cycles
 - Quicker response times
 - Real-Time Visibility
 - No Expensive Customization
 - Built on Microsoft Dynamics 365
