Xplorer

3D Immersive Presentation Software

Create Immersive Training & Marketing Experiences

Modest3D Xplorer is the leading software to rapidly create immersive 3D presentations

Award-Winning Software

Modest3D Xplorer has a familiar drag-and-drop presentation like interface where users can access the tools to create immersive presentations that can be published directly to desktop, virtual reality or mobile.

Crossplay

Have multiple players join the same immersive presentation from any location with multi-user support

Multiplatform

Create VR, AR, mobile and desktop 3D applications all within the same tool with a simple click of a button

Multiplayer

Interact seamlessly in one immersive experience while viewing on completely different platforms

Xplorer Creation Process

Xplorer has a wealth of built in applications for intuitive and seamless usability for first time users to create immersive 3D experiences in minutes.

- **Draw-On Tools**
- **X-Ray Views**
- **Videos**
- **PDFs**
- **Sounds**
- **Animations**

- **Hotspots**

Use Cases

1 Virtual Showrooms

Allow clients to experience your physical products and receive detailed product information

2 Product Experiences

Develop training on complex equipment, for users to interact and learn features and parts of the equipment

3 Site Walkthroughs

Create site walkthroughs to showcase work site layout, train on safety protocols or present new site designs
