Forms Connect & Pro
'Turn paper based processes into digital workflows'

Digitize your Paper Processes with Forms Connect!

Industries such as Healthcare and Manufacturing love the quick turnaround on our digital solution for Health and Safety on site.

It removes the need for hundreds of paper based forms that are difficult to audit and unable to provide any data insights.

Forms Connect is a Microsoft Power Platform Solution that applies across all industry verticals as it allows you digitise the gathering of data and images, and store it in the Microsoft Cloud.

Take advantage of our trial and see how our on Health and Safety solution is not only is simple to use but integrates into your local AD. If you like after the trial we can provide access to the full version with additional functionality and connectors for SharePoint Online, CDS, or Azure SQL, or alternatively we will build a specific prototype for your business and advise on a roll out plan.

This is ideal for any Departmental teams looking to solve challenges around capturing information from the field and bringing back into the Microsoft Cloud.

Contact us at Evros for more information.
