

PartnerLink

Simple, Secure *Supply Chain* Communication

Introducing PartnerLink

PartnerLink is a secure, scalable, and easy-to-use EDI & B2B interchange solution that integrates natively with Microsoft Dynamics 365 Finance & Operations and supports integration with any other ERP system.

Automatically convert partner document formats, customize and reuse business rules, and centrally manage transmission exceptions. Save time, control costs, and improve partner coordination with PartnerLink.

Common EDI Challenges

High complexity: Exchanging business data with other organizations can be expensive and technically complex

Poor scalability: Many EDI solutions fail to scale to high volumes and become sluggish under peak loads

Process silos: Standalone EDI systems need to be maintained separately from ERP platforms, and transactions remain isolated from other business processes

Easy

ERP
Integration

The PartnerLink
Experience

Centralized Management

- Intuitive management console
- At-a-glance information on transaction errors
- Inbound and outbound processing statistics
- Scheduled and event-triggered alerts

Easy Deployment

- Short deployment cycle
- Process thousands of records per hour
- Supports EDI and Custom formats
- Cloud-based or on-premises deployment options

Easy Partner Onboarding

- Pre-configured business rule library
- Easily save, customize, and reuse business rules
- Apply rules on per-partner or per-document basis
- Onboard EDI or non-EDI partners

ERP Integration

- PartnerLink integrates with Microsoft Dynamics 365 or custom ERP platforms
- Decoupled architecture allows ERP and PartnerLink to be configured and updated independently
- Graphical mapping tool simplifies data conversion between EDI and ERP formats.
- Quickly find elements in large mappings

Job Scheduling and Reporting

- Save time by scheduling regular transmissions
- Batch jobs send multiple documents at once
- Comes with pre-built reports for instant results
- Advanced support for custom reports

The PartnerLink Experience

- Highly trained EDI team with in-depth industry experience
- Innovative onshore-offshore delivery and support model
- Ongoing training, monitoring, and operational support

PartnerLink
The perfect tool for B2B communication with EDI and non-EDI trading partners
