

Supplier Relations for Dynamics 365

Creating Impact on Procurement

anywhere²⁴
ACANDO GROUP

Powerful Management of procurement and supply chain for Dynamics 365

Supplier Relations for Dynamics 365 is a unique platform for managing the complete Supplier Life Cycle, eProcurement processes, Category Management and predicting outcome actions – based on internal and external available data.

Supplier Relations helps organizations to reduce costs, collaborate more efficient with colleagues and suppliers and even has predictive insights into your organization.

Powerful Solution that **improves and standardizes** your supplier and category management processes.

Suppliers and lead buyers **seamlessly collaborate and exchange** data, facts and even orders.

Innovative solution that **predicts outcomes, changes and needs** by artificial intelligence and machine learning.

Numerous key features

- Supplier-Life-Cycle
- Supplier Rating / Scoring
- Supplier Applications / Evaluations
- Supplier Portal
- Master Data Management
- Contracts / Certifications
- KPIs / Benchmarking
- Sourcing Strategies
