# Dynamics 365

To accelerate your digital transformation, you need a new type of business application. One that breaks down the silos between CRM and ERP, that's powered by data and intelligence, and helps capture new business opportunities. That's Microsoft Dynamics 365.

## KEY SOLUTIONS

### SALES

Empower sellers with insights to personalize relationships, predict customer needs, and increase sales.

### SERVICE

Exceed customer expectations across self and assisted support with empowered agents that deliver personalized experiences.

### FINANCE AND OPERATIONS

Modernize your business operations across finance, manufacturing, and supply chain to drive new growth.

### TALENT

Attract the right people and seamlessly onboard, engage, and grow your talent.

### MARKETING

Unify sales and marketing content, data, and processes with Adobe Marketing Cloud.

### START WITH WHAT YOU NEED

Choose from modular applications that are designed for specific processes, roles, and industries – so you can solve a business problem and easily expand to run your entire business in the cloud. Meet the unique needs of your organization with a modern business platform that makes it easy to tailor and extend Dynamics 365 applications – with little to no code development. Quickly build apps, automate workflows, and bring additional data insight into your business with the Microsoft business application platform.

### OPTIMIZE PRODUCTIVITY

Enable greater productivity by seamlessly connecting your business process data with Office 365 and LinkedIn data – surfacing it within familiar tools like Outlook, Excel, and Power BI. Streamline business processes – from lead capture to mobile approvals.

### INFUSE INTELLIGENCE

Deliver actionable insights powered by artificial intelligence and the Microsoft cloud that proactively guide employees to optimal outcomes and drive business results. Pull rich analytics from your data with Power BI, build sophisticated business apps with PowerApps, create workflow automations with Microsoft Flow, and bring together all the data you need with Common Data Service.

### ADAPT TO CHANGE

Easily tailor, extend, connect, and build applications with a modern platform and little to no code development so you can meet your specific business needs. Create apps that work across Windows, iOS, Android, and web using PowerApps.
