

Edgewater Fullscope Launches FoodAXpress, A Cloud-based Implementation Tool for Food Processors

First Fullscope Industry Solution Available on Microsoft Azure

Athens, Alabama — September 23, 2015 — Edgewater Fullscope, a wholly-owned subsidiary of Edgewater Technology, Inc. (NASDAQ: EDGW) and leading provider of Microsoft Dynamics AX and CRM solutions to manufacturers, today announced the availability of its FoodAXpress, one of the first Microsoft Dynamics Solutions available on Microsoft Azure.

FoodAXpress is a rapid deployment template to help streamline the time it takes to implement an enterprise resource planning (ERP) solution in a food manufacturing company. Delivered through a ready-to-go environment in Azure using Microsoft Lifecycle Services (LCS), FoodAXpress includes:

- A comprehensive business process model that reflects how Microsoft Dynamics AX addresses organizational, financial, operational and regulatory business processes and analytical needs in a food manufacturing organization
- A preconfigured Microsoft Dynamics AX environment for a food manufacturing company that can be deployed in Azure with related setup, configuration and master data samples
- An implementation methodology designed specifically for rapid deployment of Microsoft Dynamics AX in a food manufacturing company
- A set of preconfigured data migration scripts to bring in master data including items, customers, vendors and bills of materials

“We have leveraged over 15 years of experience with food manufacturing ERP implementations and are excited to offer an easy-to-use, Cloud-based template to help food manufacturers achieve quicker results from their Dynamics AX investments,” said Reddy Beeram, director of product development for Edgewater Fullscope.
