

DOMAIN 6
DIGITIZING THE REAL ESTATE MARKET

IntelliSpace 365

Built Because

Residential, commercial and mixed-use property management firms are striving to gain more visibility across their business whilst at the same time providing better tenant experiences, keeping workspace and equipment in optimum condition all year round and adhering to increasing regulatory compliance

Built For

Property and Facility Managers, Tenant customer service reps and property service technicians

Built To

- Create and organize different types of both shared and wholly-leased facilities to track maintenance, upgrades and billing across your suite of properties
- Track tenant/customer relations for properties, facilities and serviceable objects
- Track utility meter consumption to discover overages or potential issues
- Better optimize technician time by seeing upcoming service activities

Resulting In

Residential, commercial and mixed-use property management firms that are empowered to better design, manage and service their properties
