

# VeriTouch Insurance CRM Solution

Microsoft  
Dynamics 365

Certified

## Architecture

### USERS & PARTNERS

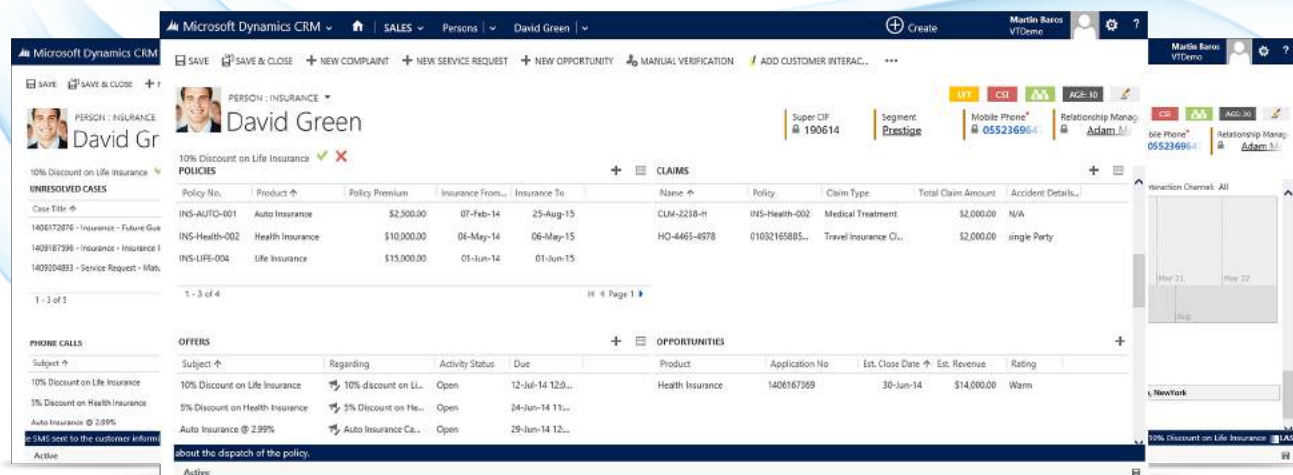

CONTACT CENTER AGENCY TELE-SALES DIRECT-SALES OPERATIONS RISK BUSINESS EXCELLENCE	Pension Funds	Know Your Customers	Sales Force Management	Marketing & Campaign Management
		Contact Center Automation	Contact & Account Management	360 Single View of Customer
	Life Insurance	Broker Relationship Management	Service Request & Complaint Management	Prospect Management
		Loyalty Management	Claim Management	Master Data Management
	Core Insurance Products	Quote & Proposal Management	Social Media Intergration	Online Selling

## Single View of Customer

360 degree customer view provides a consolidated view of all customer products, channel interactions, claims, offers and existing opportunities. The single view provides a set of visual icons to represent various flags of related to the customer such as if the customer is delinquent, is blacklisted or has an expiring policy or not.

360 view allows to capture customer interactions every time and display the interactions in a timeline.

## Single View of Broker

This view provides the basic information about the broker with some additional info on the relationship. Such as broker's segmentation, his targets and actuals, contact persons for the broker and all interaction history. This view shows the portfolio of the broker in various drill down charts.

## Contact Center Automation

VeriTouch provides a complete agent desktop solution by providing the following features.

- Unified agent desktop provides one window solution for inquiries, maintenance and financial transactions
- IVR / CTI integration by popping up 360 view of the incoming caller
- Complaints and claims capture
- Lead capture and assignment to branch and direct sales agent channel
- Knowledge base
- Customer interaction capture as a call disposition

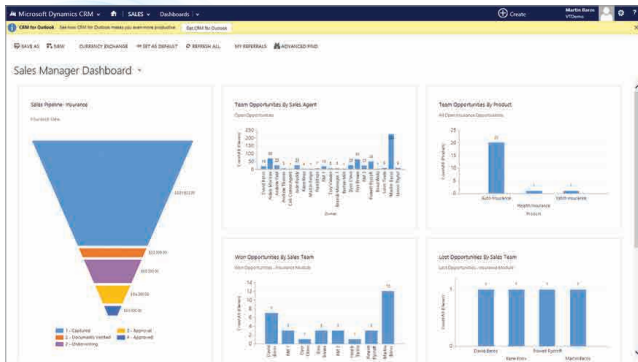

## Sales Management

Sales management module automates full sales cycle from prospecting to closure. Management can have complete visibility of sales pipeline. Sales management module provides the following features:

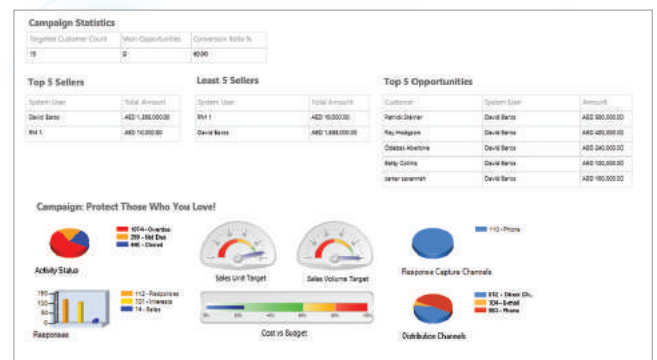

- Prospect capturing, eligibility check, assignment and conversion
- Opportunity capture, automatic assignment and routing
- Multi-channel sales process from agent network to branches to brokers
- Service Level Agreements (SLA) for opportunities
- Configuration driven sales process development for any product
- Escalations of opportunities with breached SLA
- Sales pipeline dashboard and reports
- Inbound and outbound sales processes

## Marketing Automation

VeriTouch provides a complete marketing automation for financial institutions by providing complete cycle of campaign preparation, launching, execution and distribution. VeriTouch offers the following features for marketing automation:

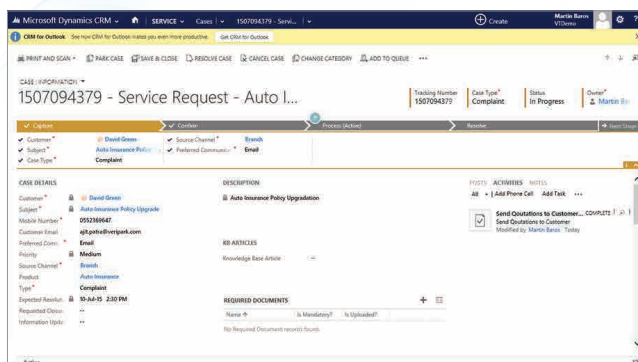

- Campaign creation, budget tracking and execution
- Target list preparation by customer segmentation
- Activity distribution such as phone calls, e-mails, SMS, etc
- Scripting support to have personalized dialogs
- Campaign dashboard to monitor the campaign real-time such as leads contacted and converted

## Complaints Management

VeriTouch allows an insurer to offer operational excellence by providing automated workflows for complaints. Once a complaint is captured it is automatically routed to back office queues for fulfillment. Complaints module offers the following features:

- Complaint and service request capture with structured entry of details
- Automatic routing and assignment of cases by subject
- Segment and channel driven Service Level Agreements (SLAs)
- Escalation of cases after SLA breach
- Configuration driven case process configurator
- Case dashboard and reports
