

# eShopConnect

Providing seamless Integration between  
Microsoft Dynamics ERP and Magento

eShopConnect is a robust Integrator tool built utilizing the Dynamics ERP and Magento Web services to create secure and effortless connection between the two.

**Enabling ERP as its  
Master Source,  
eShopConnect makes it a  
single point of truth for  
business-critical data.**

By extending the rich functionalities provided by your ERP, the website is propelled with all the data and business logic it needs to provide your customers a personalized shopping experience.

## Reasons to Integrate with eShopConnect

- ✓ Your ERP is the true Master source - Create/Maintain data in NAV and share across multiple platforms seamlessly.
- ✓ Built to fit, ready solution to automate and streamline your Online Commerce.
- ✓ Full Integration that supports both Schedule based and Demand based synchronization.
- ✓ Personalize customer experience by showing them their negotiated pricing, terms, discounts and more.
- ✓ Shopping cart feature to create Sales Quote and Sales Orders right into the ERP.
- ✓ Omni-channel capable for a unified shopping experience for your customers.
- ✓ Ready Integration to major shipping gateways and support for online payment services.
