Powering Enterprise Transformations[®]

PowerBA™ Platform

Analyze and Migrate Notes Application Content to SharePoint, Office 365, and Other Enterprise Repositories

PowerBA™ platform applications enable organizations to analyze and migrate legacy Notes and Domino applications to Microsoft SharePoint, SharePoint Online in Office 365, and other enterprise content repositories. PowerBA™ Analyzer is an automated solution for inspecting and analyzing Domino servers and applications and PowerBA™ Data Migrator is an automated solution for migrating content from your legacy Notes and Domino applications to the destinations of your choice.

Analyze and move your Domino application data to SharePoint or other applications

ANALYZE

Analyze your Domino applications

PowerBA™ Analyzer provides key insights on the design, functionality, categorization, content, usage and security of your Domino databases. PowerBA Analyzer will help you accurately determine the path, time and cost of migrating your Domino applications.

MIGRATE

Move Domino applications content to SharePoint

PowerBA™ Data Migrator provides you with a flexible, scalable, and high-fidelity migration of your content from any Domino database. Quickly migrate your content to Microsoft SharePoint, SharePoint Online in Office 365, enterprise content repositories, and SaaS applications.
